Recent Developments

Proposed Merger with Omaha Bank

On August 12, 2019, CIT Group entered into an Agreement and Plan of Merger (the “Merger Agreement”) pursuant to which, on the terms and subject to the conditions set forth therein, Mutual of Omaha Bank (“Omaha Bank”), a federal savings bank and an indirect wholly-owned subsidiary of Mutual of Omaha Insurance Company (“Omaha Insurance”), will merge (the “Merger”) with and into CIT Bank, with CIT Bank surviving as a direct wholly-owned subsidiary of the Company. Prior to the effective time of the Merger (the “Effective Time”), Omaha Bank will wind down, dissolve, distribute, sell or transfer all of its subsidiaries, such that Omaha Bank will cease to have any direct or indirect subsidiaries as of the Effective Time.

The Merger creates significant financial and strategic value for the Company by (i) enhancing its core deposits, (ii) accelerating its strategic plan by extending its commercial banking reach and deploying its capital and (iii) strengthening profitability.

The transaction includes \$6.8 billion in deposits, \$4.5 billion of which are homeowners association (HOA) deposits from more than 31,000 community associations nationwide, and \$2.3 billion of which are from commercial and consumer financial centers in key markets. In addition, \$8.3 billion of total assets, including \$3.9 billion of middle-market commercial loans, are part of the transaction, which adds to the Company’s growing franchise.

At the Effective Time, all outstanding shares of common stock, par value of \$1.00 per share, of Omaha Bank will be collectively converted into rights to receive, in the aggregate for all such shares, consideration in an amount equal to a target of \$725.0 million for the tangible common equity of Omaha Bank as of the closing date

Table of Contents

of the Merger (the “Closing TCE”), plus the difference between the actual Closing TCE and \$725.0 million (which, if positive, Omaha Bank, its parent Omaha Financial Holdings, Inc. (“Omaha Holdings”) and Omaha Insurance have agreed to use reasonable best efforts to dividend out of Omaha Bank prior to the closing date of the Merger), plus \$275.0 million, subject to adjustment in respect of certain matters relating to Omaha Bank retention awards and change in control plans and other administrative matters (such amount, as adjusted, the “Merger Consideration”). Up to \$150.0 million of the Merger Consideration may consist of shares of the Company’s common stock, par value \$0.01 per share (the “Company Common Stock”), as determined by the Company in its sole discretion, based on a per share value of \$48.47, the volume weighted average price per share of the Company Common Stock on the New York Stock Exchange for the twenty (20) trading days prior to the announcement of the Merger Agreement. The Merger Agreement was approved by the respective boards of each of the Company, CIT Bank, Omaha Insurance, Omaha Holdings and Omaha Bank.

The completion of the Merger is subject to certain customary mutual conditions, including, among others, (1) the absence of any statute, rule, regulation, order, injunction or other legal restraint preventing the completion of the Merger or making the consummation of the Merger illegal and (2) the receipt or waiver of required regulatory approvals. CIT’s obligation to complete the Merger is also subject to Omaha Bank ceasing to have any subsidiaries, as described above, and the resignation of its directors.

The Merger Agreement also provides certain customary termination rights for each party, including, among others, if the Merger has not been completed by the one-year anniversary of the date of the Merger Agreement

We plan on financing the Merger with Company Common Stock (at our option), the proceeds of this offering of Series B Preferred Stock, the proceeds of the offering of subordinated notes and the proceeds of CIT Bank’s issuance of \$550 million aggregate principal amount of its 2.969% senior unsecured fixed-to-floating rate notes due 2025 (the “2.969% Notes”). On November 7, 2019, we priced an offering of 4.125% fixed-to-fixed rate subordinated notes pursuant to a separate prospectus supplement. The completion of this offering and the subordinated notes offering are not conditioned upon one another or upon the Merger.

The Merger is subject to certain risks and uncertainties, including the ability to obtain regulatory approvals and to meet other closing conditions to the Merger. See “Risk Factors—Risks Relating to the Proposed Merger with Omaha Bank”. There can be no assurance that the Merger will be consummated as contemplated, or at all, or that the expected benefits of the Merger will be realized when expected, or at all.

After payment of the full amount of the liquidation distribution, holders of the Series B Preferred Stock shall not be entitled to any further participation in any distribution of CIT’s assets.</p> <p>In any such distribution, if CIT’s assets are not sufficient to pay the liquidation preference in full to all holders of Series B Preferred Stock and all holders of any shares of our capital stock ranking as to any such liquidation distribution on parity with the Series B Preferred Stock, the amounts paid to the holders of Series B Preferred Stock</p> |

RISK FACTORS

The operation of our business, and the continued economic uncertainty in the U.S. and other regions of the world involve various elements of risk and uncertainty. Before making a decision whether to invest in the Series B Preferred Stock, you should carefully consider the risks and uncertainties described below, as well as the risks described under the caption “Risk Factors” in the accompanying prospectus and risks described under the caption “Risk Factors” in our 2018 Form 10-K, which is incorporated herein by reference. Additional risks that are presently unknown to us or that we currently deem immaterial may also impact our business.

Risks Relating to the Proposed Merger with Omaha Bank

The proposed merger of Omaha Bank into CIT Bank may not be completed, or may not be completed on the time frame anticipated by the parties.

The proposed merger of Omaha Bank into CIT Bank may not be completed, or may be delayed. Completion of the Merger is subject to conditions precedent, including regulatory approvals and Omaha Bank completing various actions to cease to have any subsidiaries as of the effective time of the acquisition. The regulatory approvals could be delayed or not obtained at all, including due to: an adverse development in either party’s regulatory standing or any other factors considered by regulators in granting such approvals; governmental, political or community group inquiries, investigations or opposition; or changes in legislation or the political environment generally. The governmental entities from which the approvals are required may impose conditions on the completion of the Merger, which could have the effect of delaying or preventing its completion. If any of the conditions precedent to the completion of the Merger are not satisfied, or waived, the transaction would not be consummated.

If the Merger is not consummated, either by failure to meet any of the conditions precedent or by termination of the Merger Agreement for any other reason, there may be various consequences. For example, CIT’s businesses may have been impacted adversely by the failure to pursue other beneficial opportunities due to the focus of management on the Merger, without realizing any of the anticipated benefits of completing the Merger. Additionally, CIT has incurred and will incur substantial expenses in connection with the negotiation and completion of the transactions contemplated by the Merger Agreement. If the Merger is not completed, CIT would have to recognize these expenses without realizing the expected benefits of the Merger.

The consummation of the Merger is not a condition to this offering. If the Merger does not occur, we are not required to redeem or repurchase the Series B Preferred Stock offered hereby, and our management will have discretion to use the proceeds of this offering for general corporate purposes.

Integrating Omaha Bank into CIT Bank’s operations may be more difficult, costly or time-consuming than CIT expects and CIT Bank may fail to realize the anticipated benefits of the Merger.

CIT Bank and Omaha Bank have operated and, until the Merger is completed, will continue to operate, independently. The process of integrating Omaha Bank’s operations into CIT Bank’s operations after the Merger is completed could result in the disruption of operations or the loss of Omaha Bank customers and employees, which would make it more difficult to achieve the intended benefits of the Merger. Inconsistencies between the standards, controls, procedures and policies of CIT Bank and those of Omaha Bank could adversely affect CIT Bank’s ability to maintain relationships with customers, depositors and employees or to achieve the anticipated benefits of the Merger. Integration efforts between the two banks may also divert management attention and resources.

As with any Merger of banking institutions, business disruptions may occur that may cause CIT Bank to lose customers or may cause Omaha Bank customers to withdraw their deposits from Omaha Bank prior to the Merger’s consummation or from CIT Bank thereafter. The realization of the anticipated benefits of the Merger

Table of Contents

may depend in large part on CIT Bank's ability to integrate Omaha Bank's operations into CIT Bank's operations in a manner that permits growth opportunities and does not materially disrupt existing customer relationships nor result in materially decreased revenues due to loss of customers. The success of the Merger will depend on, among other things, CIT Bank's ability to address differences in business models and cultures. If CIT Bank is unable to integrate the operations of Omaha Bank into CIT Bank's operations successfully and on a timely basis, some or all of the expected benefits of the Merger may not be realized. Difficulties encountered with respect to such matters could result in an adverse effect on the financial condition, results of operations, capital, liquidity or cash flows of CIT Bank and Omaha Bank.

Risks Relating to the Series B Preferred Stock

The shares of Series B Preferred Stock are equity securities and are subordinate to our existing and future indebtedness; certain of our future indebtedness may restrict the payment of dividends on the Series B Preferred Stock.

The shares of Series B Preferred Stock are equity interests in CIT and do not constitute indebtedness of CIT or any of our subsidiaries. As a result, the Series B Preferred Stock will rank junior to all of our and our subsidiaries' existing and future indebtedness and other non-equity claims with respect to assets available to satisfy claims against us, including claims in the event of our liquidation. If we are forced to liquidate our assets to pay our creditors, we may not have sufficient funds to pay amounts due on any or all of the Series B Preferred Stock and any parity securities then outstanding. In the event of any liquidation, dissolution or winding up of CIT, holders of the Series B Preferred Stock will not be entitled to receive the liquidation preference of their shares until we have paid or set aside an amount sufficient to pay in full the liquidation preference of any class or series ranking senior as to rights upon liquidation, dissolution or winding up, after which holders of the Series B Preferred Stock will share ratably with holders of the Series A Preferred Stock and any other parity securities then outstanding.

Additionally, unlike indebtedness, where principal and interest would customarily be payable on specified due dates, in the case of preferred stock like the shares of Series B Preferred Stock (1) dividends are payable only if declared by our board of directors or a duly authorized committee of the board, (2) as a corporation, we are subject to restrictions on payments of dividends and any redemption price out of lawfully available funds and (3) as a bank holding company, our ability to declare and pay dividends is subject to the oversight of the Federal Reserve. In addition, the Series B Preferred Stock may be fully subordinate to interests held by the U.S. government in the event of a receivership, insolvency, liquidation, or similar proceeding, including a proceeding under the "orderly liquidation authority" provisions of the Dodd-Frank Wall Street Reform and Consumer Protection Act (the "Dodd-Frank Act").

As of September 30, 2019, our total consolidated liabilities, including indebtedness, were approximately \$45.4 billion. We may incur additional debt in the future. Our future indebtedness may restrict the payment of dividends on the Series B Preferred Stock. In addition, the terms of the Series B Preferred Stock do not restrict our business or operations, nor do they restrict our ability to incur indebtedness or engage in any transactions, subject only to the limited voting rights of the Series B Preferred Stock described under "Description of the Series B Preferred Stock—Voting Rights" in this prospectus supplement.

Dividends on the Series B Preferred Stock are discretionary and non-cumulative.

Dividends on the Series B Preferred Stock are discretionary and are not cumulative. Unlike indebtedness, where principal and interest would customarily be payable on specified due dates, in the case of preferred stock such as the Series B Preferred Stock, dividends are payable only when, as and if authorized and declared by our board of directors or a duly authorized committee of the board. Consequently, if our board of directors or a duly authorized committee of the board does not authorize and declare a dividend for any dividend period, holders of the Series B Preferred Stock will not be entitled to receive any such dividend, and such unpaid dividend will

Table of Contents

cease to accrue or be payable. We will have no obligation to pay dividends accrued for a dividend period after the dividend payment date for such period if our board of directors or a duly authorized committee of the board has not declared such dividend before the related dividend payment date, whether or not dividends are declared for any subsequent dividend period with respect to the Series B Preferred Stock or any other preferred stock we may issue. If we do not declare and pay dividends on the Series B Preferred Stock, the market price of the shares of Series B Preferred Stock may decline.

If we are not paying full dividends on any outstanding parity stock, including our Series A Preferred Stock, we will not be able to pay full dividends on Series B Preferred Stock.

Additionally, when dividends are not paid in full upon the Series B Preferred Stock and any other securities we have issued or may issue that have dividend rights on parity with the Series B Preferred Stock (whether such dividends are cumulative or non-cumulative), including the Series A Preferred Stock, all dividends declared upon the Series B Preferred Stock and such dividend parity securities will be declared *pro rata* in proportion to the respective amount of the undeclared and unpaid dividends on the Series B Preferred Stock and all parity stock, including the Series A Preferred Stock, for such dividend period. Therefore, if we are not paying full dividends on any outstanding parity securities, we will not be able to pay full dividends on the Series B Preferred Stock. We may issue additional securities that rank on parity with the Series B Preferred Stock with respect to the payment of dividends (whether such dividends are cumulative or non-cumulative) without the vote or consent of any holders of Series B Preferred Stock.

We depend on dividends from our subsidiaries for a significant portion of our cash flow, and we may be restricted from paying dividends on or repurchasing our common stock and the Series B Preferred Stock.

CIT is a legal entity separate and distinct from its subsidiaries, including CIT Bank, and relies on dividends from its subsidiaries for a significant portion of its cash flow. Federal banking laws and regulations limit the amount of dividends that CIT Bank can pay to CIT. In particular, the Federal Reserve, the OCC and FDIC have authority to prohibit or to limit the payment of dividends by the banking organizations they supervise, including, for example, the parent company, if in the relevant banking regulator's opinion, payment of a dividend would constitute an unsafe or unsound practice in light of the financial condition of the banking organization, or if the bank would not be at least "adequately capitalized" following the distribution.

Investors should not expect us to redeem the Series B Preferred Stock when it first becomes redeemable at our option or on any particular date after it becomes redeemable, and our ability to redeem the Series B Preferred Stock will be subject to the prior approval of the Federal Reserve.

The Series B Preferred Stock is a perpetual equity security, meaning that the Series B Preferred Stock has no maturity date or mandatory redemption date and is not redeemable at the option of the holders of the Series B Preferred Stock. We may redeem the Series B Preferred Stock at our option, subject to regulatory approval, (1) either in whole or in part, from time to time, on any dividend payment date on or after December 15, 2024 or (2) in whole but not in part, within 90 days following a "regulatory capital treatment event," as described below under "Description of the Series B Preferred Stock—Redemption." Any determination we make at any time to propose a redemption of the Series B Preferred Stock will depend upon a number of factors, including our evaluation of our capital position, the composition of our shareholders' equity and general market conditions at that time.

Our right to redeem the Series B Preferred Stock is subject to any limitations established by the Federal Reserve. Under the Federal Reserve's risk-based capital rules applicable to bank holding companies, any redemption of the Series B Preferred Stock is subject to prior approval of the Federal Reserve. There can be no assurance that the Federal Reserve will approve any redemption of the Series B Preferred Stock that we may propose. We understand that the factors that the Federal Reserve will consider in evaluating a proposed

Table of Contents

redemption include its evaluation of the overall level and quality of our capital components, considered in light of our risk exposures, earnings and growth strategy, and other supervisory considerations, although the Federal Reserve may change these factors at any time.

Accordingly, investors should not expect us to redeem the Series B Preferred Stock when it first becomes redeemable or on any particular date thereafter. If we redeem the Series B Preferred Stock for any reason, you may not be able to reinvest the redemption proceeds you receive in a similar security or in securities bearing similar dividend rates or yields.

We may be able to redeem the Series B Preferred Stock before December 15, 2024 upon a regulatory capital treatment event.

In addition to our ability to redeem the Series B Preferred Stock in whole or in part on December 15, 2024, or any dividend payment date thereafter, we may redeem the Series B Preferred Stock in whole but not in part prior to December 15, 2024, upon the occurrence of certain events involving the capital treatment of the Series B Preferred Stock. In particular, upon our determination in good faith that an event has occurred that would constitute a “regulatory capital treatment event,” we may redeem the Series B Preferred Stock in whole but not in part. Such a redemption would be subject to the prior approval of the Federal Reserve. If a “regulatory capital treatment event” occurs, we would have the right, subject to regulatory approval, to redeem Series B Preferred Stock at a redemption price equal to \$25 per share, plus any declared and unpaid dividends. See “Description of Series B Preferred Stock—Redemption” in this prospectus supplement.

Holders of Series B Preferred Stock will have limited voting rights.

Holders of Series B Preferred Stock will have no voting rights with respect to matters that generally require the approval of voting shareholders. However, holders of the Series B Preferred Stock will have the right to vote in certain circumstances as described under “Description of the Series B Preferred Stock—Voting Rights.” Voting rights will primarily exist in the event of non-payment of dividends under certain circumstances (voting as a class with the holders of shares of any other series of preferred stock ranking equally as to the payment of dividends and having equivalent voting rights, including the Series A Preferred Stock), authorizing classes or series of preferred stock senior to the Series B Preferred Stock and with respect to certain fundamental changes in the terms of the Series B Preferred Stock or as otherwise expressly required by law. See “Description of the Series B Preferred Stock—Voting Rights.”

To the extent that the Series B Preferred Stock is deemed to be voting securities for federal banking regulation purposes, certain regulatory restrictions and consequences may apply to holders of the Series B Preferred Stock, depending, among other things, on their total ownership percentage of voting securities in CIT and their regulatory status. The Series B Preferred Stock will also count as equity in the calculation of total equity securities of CIT owned by a person or group, which may be relevant to determining whether a holder or group of holders controls us in certain circumstances.

We cannot assure you that a liquid trading market for the Series B Preferred Stock will develop, and you may find it difficult to sell your Series B Preferred Stock.

Application will be made to list the Series B Preferred Stock on the NYSE under the symbol “CITPRB.” However, there is no guarantee that we will be able to list the Series B Preferred Stock. If approved, we expect trading of the Series B Preferred Stock on the NYSE to begin within the 30-day period after the original issue date. Even if the Series B Preferred Stock is listed, there may be little or no secondary market for the Series B Preferred Stock. The underwriters have advised us that they intend to make a market in the Series B Preferred Stock. However, they are not obligated to do so and may discontinue any market making in the Series B Preferred Stock at any time in their sole discretion. Even if a secondary market for the Series B Preferred Stock develops, it may not provide significant liquidity and transaction costs in any secondary market could be high. As

Table of Contents

a result, the difference between bid and asked prices in any secondary market could be substantial. We cannot assure you that you will be able to sell your Series B Preferred Stock at a particular time or that the price you receive when you sell will be favorable.

General market conditions and unpredictable factors could adversely affect market prices for the Series B Preferred Stock.

There can be no assurance about the market prices for the Series B Preferred Stock. A variety of factors, many of which are beyond our control, could influence the market price of the Series B Preferred Stock. Factors that might influence the market value of the Series B Preferred Stock include, but are not limited to:

- whether we declare or fail to declare dividends on the Series B Preferred Stock from time to time;
- our operating performance, financial condition and prospects, or the operating performance, financial condition and prospects of our competitors;
- real or anticipated changes in the credit ratings assigned to the Series B Preferred Stock or our other securities;
- our creditworthiness, financial condition, performance, and prospects;
- changes in interest rates and expectations regarding changes in rates;
- our issuance of additional preferred equity;
- the market for similar securities;
- developments in the securities, credit and other markets, and developments with respect to financial institutions generally; and
- economic, financial, corporate, securities market, geopolitical, regulatory or judicial events that affect us, the banking industry or the financial markets generally (including the occurrence of market disruption events).

Accordingly, the shares of Series B Preferred Stock that an investor purchases, whether in this offering or in the secondary market, may trade at a discount to the price the investor paid for such Series B Preferred Stock, and their value may fluctuate significantly.

The Series B Preferred Stock is equal in rights and preferences to our outstanding preferred stock and may be junior or equal in rights and preferences to any preferred stock we may issue in the future.

The Series B Preferred Stock ranks equally with our outstanding Series A Preferred Stock with respect to the payment of dividends or upon liquidation as to liquidation payments and we may, in the future, issue one or more additional series of preferred stock that ranks equally to the Series B Preferred Stock with respect to the payment of dividends or upon liquidation as to liquidation payments. Additionally, the Series B Preferred Stock may rank junior to other preferred stock we may issue in the future that by its terms is expressly senior in rights and preferences to the Series B Preferred Stock, although the affirmative vote or consent of the holders of at least two-thirds of all outstanding shares of the Series B Preferred Stock is required to issue any shares of stock ranking senior in rights and preferences to the Series B Preferred Stock. The terms of any future preferred stock we may issue that is expressly senior to the Series B Preferred Stock may restrict dividend or liquidation payments on the Series B Preferred Stock. Unless dividends for all outstanding preferred stock expressly senior to the Series B Preferred Stock have been declared and paid in full or set aside for payment in full, we may be prohibited from declaring or paying dividends or making any other distributions on, and we may be prohibited from repurchasing, redeeming or otherwise acquiring, directly or indirectly, for consideration, shares of Series B Preferred Stock. This could result in dividends on the Series B Preferred Stock not being paid on any particular dividend payment date. In the event of any liquidation, dissolution or winding up of CIT, the holders of the

Series B Preferred Stock will not be entitled to receive the liquidation preference of their shares until we have paid or set aside an amount sufficient to pay in full our liabilities and the liquidation preference of any class or series of our capital stock ranking senior as to rights upon liquidation, dissolution or winding up.

Additional issuances by us of preferred stock or securities convertible into or exchangeable for preferred stock do not generally require the approval of holders of Series B Preferred Stock and could adversely affect holders of Series B Preferred Stock.

We may, in the future, determine that it is advisable or necessary to issue additional shares of preferred stock, securities convertible into, exchangeable for or that represent an interest in preferred stock, or preferred stock-equivalent securities. Our certificate of incorporation authorizes our board of directors to cause us to issue one or more classes or series of preferred stock from time to time without any action on the part of our shareholders, including issuing additional shares of Series B Preferred Stock. Our board of directors also has the power, without shareholder approval, to set the terms of any such classes or series of preferred stock that may be issued, including voting rights, dividend rights, redemption provisions and preferences over the Series B Preferred Stock with respect to dividends or upon our dissolution, winding-up and liquidation and other terms. Although the approval of holders of two-thirds of the then-outstanding shares of the Series B Preferred Stock will be required to issue any equity security ranking senior in rights and preferences to the Series B Preferred Stock, if we issue preferred stock in the future that has preference over, or is equal in preference to, the Series B Preferred Stock with respect to the payment of dividends or upon liquidation, or if we issue preferred stock with voting rights that dilute the voting power of the Series B Preferred Stock, the rights of holders of the Series B Preferred Stock or the market price of the Series B Preferred Stock could be adversely affected. The market price of the shares of Series B Preferred Stock could decline as a result of issuance of these securities, as well as other sales of a large block of shares of Series B Preferred Stock or similar securities in the market thereafter, or the perception that such sales could occur. Holders of the Series B Preferred Stock are not entitled to preemptive rights or other protections against dilution. Because our decision to issue securities in any future offering will depend on market conditions and other factors beyond our control, we cannot predict or estimate the amount, timing or nature of our future offerings. Thus, holders of the shares bear the risk that our future offerings will reduce the market price of the shares and dilute their ownership of the Series B Preferred Stock.

Holders of the Series B Preferred Stock may be unable to use the dividends-received deduction.

Distributions paid to a United States holder (as defined in “Material United States Federal Income Tax Considerations” in this prospectus supplement) that is a corporation may be eligible for the dividends-received deduction. Although we have accumulated earnings and profits, if any distributions on the Series B Preferred Stock with respect to any taxable year fail to qualify as dividends for United States federal income tax purposes because we have insufficient current or accumulated earnings and profits in such taxable year, United States holders would be unable to use the dividends-received deduction. If that were to occur, the market value of the Series B Preferred Stock may decline.

The Series B Preferred Stock is expected to initially be rated below investment grade.

The Series B Preferred Stock is expected to initially be rated below investment grade, and there can be no assurance that it will be rated investment grade in the future or otherwise be upgraded. Further, the Series B Preferred Stock may be subject to a higher risk of price volatility than similar, higher-rated securities. In addition, increases in leverage or deteriorating outlooks for an issuer, or volatile markets, could lead to continued significant deterioration in market prices of below-investment grade rated securities, such as the Series B Preferred Stock.

Ratings only reflect the views of the issuing rating agency or agencies and such ratings could at any time be revised downward, placed on a watch list or withdrawn entirely at the discretion of the issuing rating agency. Further, a rating is not a recommendation to purchase, sell or hold any particular security, including the Series B

Preferred Stock. In addition, ratings do not reflect market prices or suitability of a security for a particular investor and any rating of the Series B Preferred Stock may not reflect all risks related to the Company and its business, or the structure or market value of the Series B Preferred Stock. The credit rating agencies evaluate the financial services industry as a whole and may change their credit rating for us and our securities based on their overall view of our industry. A future downgrade, withdrawal, or the announcement of a possible downgrade or withdrawal in the ratings assigned to the Series B Preferred Stock, us or our other securities, or any perceived decrease in our creditworthiness could cause the trading price of the Series B Preferred Stock to decline significantly.

An investment in the Series B Preferred Stock is not an FDIC insured deposit.

The shares of Series B Preferred Stock are not savings accounts, deposits or other obligations of any of our bank or non-bank subsidiaries and are not insured or guaranteed by the FDIC or any other governmental agency or instrumentality. Your investment will be subject to investment risk and you may experience loss with respect to your investment.

USE OF PROCEEDS

We anticipate receiving approximately \$195.3 million in net proceeds from the sale of the Series B Preferred Stock, after the underwriters' discount and estimated fees and expenses. We intend to use the net proceeds from this offering to finance a portion of the cash consideration expected to be paid in connection with the consummation of the Merger and to pay related fees and expenses and for general corporate purposes.

DESCRIPTION OF SERIES B PREFERRED STOCK

The following description of our Series B Preferred Stock is a summary, and to the extent inconsistent with the description of our preferred stock included in the accompanying prospectus, this summary supersedes that description. This summary is not complete and is qualified in its entirety by reference to the complete text of our fourth restated certificate of incorporation, as amended (including our Certificate of Designations filed in connection with the creation and designation of the Series B Preferred Stock), and our amended and restated bylaws, copies of which are available upon request from us, and the applicable provisions of the Delaware General Corporation Law and federal laws governing bank holding companies. You can find the definitions of certain terms used in this description under the subheading “—Certain Definitions” or in the accompanying prospectus under the heading “Description of Capital Stock.” In this description, the word “CIT” refers only to CIT Group Inc. and not to any of its subsidiaries.

General

Under our certificate of incorporation, we have authority to issue up to 100,000,000 shares of preferred stock, and our board of directors is authorized to establish the rights and privileges with respect to one or more classes or series of preferred stock that we may issue. As of the date hereof, there are 325,000 shares of Series A Preferred Stock issued and outstanding.

Prior to the issuance of the Series B Preferred Stock, we will file with the Delaware Secretary of State a Certificate of Designations, which will have the effect of amending our existing certificate of incorporation to establish the terms of the Series B Preferred Stock. The Certificate of Designations will initially authorize 8,000,000 shares of Series B Preferred Stock. We may, without notice to or the consent of holders of the Series B Preferred Stock, issue additional shares of Series B Preferred Stock from time to time. We are offering 8,000,000 shares of the Series B Preferred Stock in the aggregate by this prospectus supplement and the accompanying prospectus in connection with this offering.

We will generally be able to pay dividends and distributions upon our liquidation, dissolution or winding up only out of lawfully available funds for such payment (i.e., after taking account of all indebtedness, other non-equity and other senior claims). When the shares of Series B Preferred Stock are issued in connection with the offering contemplated by this prospectus supplement, such shares will be fully paid and non-assessable when issued, which means that holders of such shares will have paid their purchase price in full and we may not ask them to pay additional funds in respect of their shares of Series B Preferred Stock.

Holders of Series B Preferred Stock will not have preemptive or subscription rights to acquire more stock of CIT. The Series B Preferred Stock will not be convertible into or exchangeable for our common stock or any other class or series of our capital stock or other securities. The Series B Preferred Stock does not have a stated maturity date, will not be subject to any sinking fund or any other obligation of us for their repurchase, redemption or retirement and will be perpetual unless redeemed at our option.

Ranking

Shares of the Series B Preferred Stock will rank, with respect to the payment of dividends and distributions upon our liquidation, dissolution or winding-up, respectively:

- senior to our common stock and to any class or series of our capital stock we may issue that is not expressly stated to be on parity with or senior to the Series B Preferred Stock;
- on parity with, or equally to, with any class or series of our capital stock expressly stated to be on parity with the Series B Preferred Stock, including our Series A Preferred Stock; and
- junior to any class or series of our capital stock expressly stated to be senior to the Series B Preferred Stock (issued with the requisite consent of the holders of at least two-thirds of the outstanding Series B Preferred Stock).

Table of Contents

Dividends

Dividends on shares of the Series B Preferred Stock are discretionary and will not be cumulative. Holders of the Series B Preferred Stock will be entitled to receive, if, when and as declared by our board of directors, or a duly authorized committee of the board, out of legally available assets, non-cumulative cash dividends quarterly in arrears on March 15, June 15, September 15 and December 15 of each year, beginning on March 15, 2020 (each such date being referred to herein as a “dividend payment date”). Dividends will accrue from the original issue date (in the case of the initial dividend period only, as described below) or the immediately preceding dividend payment date at a rate per annum equal to 5.625%. In the event that we issue additional shares of Series B Preferred Stock after the original issue date, dividends on such shares may accrue from the original issue date or any other date we specify at the time such additional shares are issued. References to the “accrual” of dividends in this prospectus supplement refer only to the determination of the amount of such dividend and do not imply that any right to a dividend arises prior to the date on which a dividend is declared. We will not pay interest or any sum of money instead of interest on any dividend payment that may be in arrears on the Series B Preferred Stock.

Dividends will be payable to holders of record of Series B Preferred Stock as they appear on our books on the applicable record date (each such date being referred to herein as a “dividend record date”), which shall be the 15th calendar day before the dividend payment date or such other record date fixed by our board of directors, or any duly authorized committee of the board, that is not less than 15 calendar days or more than 30 calendar days before the applicable dividend payment date.

A dividend period is the period from and including a dividend payment date to but excluding the next dividend payment date or any earlier redemption date, except that the initial dividend period will commence on and include the original issue date of the Series B Preferred Stock and will end on and exclude the first dividend payment date. Any dividend payable on shares of the Series B Preferred Stock for any dividend period will be computed on the basis of a 360-day year consisting of twelve 30-day months. Dollar amounts resulting from that calculation will be rounded to the nearest cent, with one-half cent being rounded upward. If any dividend payment date is not a business day, then the related payment of dividends will be made on the next succeeding business day, and no additional dividends will accrue on such payment. The term “business day” means any day, other than a Saturday or Sunday, that is neither a legal holiday nor a day on which banking institutions are authorized or required by law or regulation to close in The City of New York.

Dividends on shares of the Series B Preferred Stock will not be cumulative. Accordingly, if our board of directors, or a duly authorized committee of the board, does not declare a full dividend on the Series B Preferred Stock payable in respect of any dividend period before the related dividend payment date, such dividend will not accrue and we will have no obligation to pay a dividend for that dividend period on the dividend payment date or at any future time, whether or not dividends on the Series B Preferred Stock are declared for any future dividend period.

We are subject to statutory and regulatory prohibitions and other limitations on our ability to declare and pay dividends on the Series B Preferred Stock. Dividends on the Series B Preferred Stock will not be declared, paid or set aside for payment if we fail to comply, or if and to the extent such act would cause us to fail to comply, with applicable laws and regulations. In particular, dividends on the Series B Preferred Stock may not be declared or set aside for payment if and to the extent such dividends would cause us to fail to comply with the capital adequacy rules of the Federal Reserve (or, as and if applicable, the capital adequacy rules or regulations of any successor appropriate federal banking agency) applicable to us. The Federal Reserve also has the authority to prohibit or to limit the payment of dividends by a banking organization under its jurisdiction if, in the regulator’s opinion, the organization is engaged in or is about to engage in an unsafe or unsound practice. Federal Reserve policy also states that dividends on capital stock should be paid from current earnings.

Table of Contents

Priority of Dividends

The Series B Preferred Stock will rank junior as to payment of dividends to any class or series of our preferred stock that we may issue in the future that is expressly stated to be senior to the Series B Preferred Stock. If at any time we do not pay, on the applicable dividend payment date, accrued dividends on any shares that rank in priority to the Series B Preferred Stock with respect to dividends, we may not pay any dividends on the Series B Preferred Stock or repurchase, redeem or otherwise acquire for consideration any shares of Series B Preferred Stock until we have paid, or set aside for payment, the full amount of the unpaid dividends on the shares that rank in priority with respect to dividends that must, under the terms of such shares, be paid before we may pay dividends on, repurchase, redeem or otherwise acquire for consideration, the Series B Preferred Stock. As of the date hereof, there are no other shares of preferred stock issued and outstanding that are senior to the Series B Preferred Stock.

So long as any share of Series B Preferred Stock remains outstanding, unless the full dividends for the most recently completed dividend period have been declared and paid, or set aside for payment, on all outstanding shares of Series B Preferred Stock:

- no dividend or distribution shall be declared, paid or set aside for payment on any junior stock (other than (i) a dividend payable solely in junior stock or (ii) a dividend in connection with the implementation of a shareholders' rights plan, or the issuance of rights, stock or other property under any such plan, or the redemption or repurchase of any rights under any such plan); and
- no junior stock shall be repurchased, redeemed or otherwise acquired for consideration by us, directly or indirectly (other than (i) as a result of a reclassification of junior stock for or into other junior stock, (ii) the exchange or conversion of shares of junior stock for or into other shares of junior stock, (iii) through the use of the proceeds of a substantially contemporaneous sale of other shares of junior stock, (iv) purchases, redemptions or other acquisitions of shares of the junior stock in connection with any employment contract, benefit plan or other similar arrangement with or for the benefit of employees, officers, directors or consultants, (v) purchases of shares of junior stock pursuant to a contractually binding requirement to buy junior stock existing prior to the most recently completed dividend period, including under a contractually binding stock repurchase plan, or (vi) the purchase of fractional interests in shares of junior stock pursuant to the conversion or exchange provisions of such stock or the security being converted or exchanged) nor shall any monies be paid to or made available for a sinking fund for the redemption of any such securities; and
- no parity stock shall be repurchased, redeemed or otherwise acquired for consideration by us, directly or indirectly (other than (i) pursuant to *pro rata* offers to purchase all, or a *pro rata* portion, of the Series B Preferred Stock and any parity stock, (ii) as a result of a reclassification of any parity stock for or into other parity stock, (iii) the exchange or conversion of any parity stock for or into other parity stock or junior stock, (iv) through the use of the proceeds of a substantially contemporaneous sale of other shares of parity stock, (v) purchases of shares of parity stock pursuant to a contractually binding requirement to buy parity stock existing prior to the most recently completed dividend period, including under a contractually binding stock repurchase plan, or (vi) the purchase of fractional interests in shares of parity stock pursuant to the conversion or exchange provisions of such stock or the security being converted or exchanged) nor shall any monies be paid to or made available for a sinking fund for the redemption of any such securities.

Notwithstanding the foregoing, if dividends are not paid in full, or set aside for payment in full, on any dividend payment date upon the shares of the Series B Preferred Stock and any shares of parity stock, all dividends declared upon the Series B Preferred Stock and all such parity stock payable on such dividend payment date shall be declared *pro rata* in proportion to the respective amounts of undeclared and unpaid dividends on the Series B Preferred Stock and all parity stock payable on such dividend payment date. To the extent a dividend period with respect to any parity stock coincides with more than one dividend period with respect to the Series B Preferred Stock, for purposes of the immediately preceding sentence, our board of directors will treat such

Table of Contents

dividend period as two or more consecutive dividend periods, none of which coincides with more than one dividend period with respect to the Series B Preferred Stock, or shall treat such dividend period(s) with respect to any parity stock and dividend period(s) with respect to the Series B Preferred Stock for purposes of the immediately preceding sentence in any other manner that it deems to be fair and equitable in order to achieve ratable payments on such dividend parity stock and the Series B Preferred Stock. To the extent a dividend period with respect to the Series B Preferred Stock coincides with more than one dividend period with respect to any parity stock, for purposes of the first sentence of this paragraph the board of directors shall treat such dividend period as two or more consecutive dividend periods, none of which coincides with more than one dividend period with respect to such parity stock, or shall treat such dividend period(s) with respect to the Series B Preferred Stock and dividend period(s) with respect to any parity stock for purposes of the first sentence of this paragraph in any other manner that it deems to be fair and equitable in order to achieve ratable payments of dividends on the Series B Preferred Stock and such parity stock. For the purposes of this paragraph, the term “dividend period” as used with respect to any parity stock means such dividend periods as are provided for in the terms of such parity stock.

As used in this prospectus supplement, “junior stock” means our common stock and any other class or series of our capital stock over which the Series B Preferred Stock has preference or priority in the payment of dividends and in the distribution of assets on any liquidation, dissolution or winding up of CIT. Junior stock includes our common stock.

As used in this prospectus supplement, “parity stock” means any other class or series of our capital stock that ranks equally with the Series B Preferred Stock in the payment of dividends and in the distribution of assets on any liquidation, dissolution or winding up of CIT, including our Series A Preferred Stock.

Subject to the foregoing, dividends (payable in cash, stock or otherwise) may be declared and paid on our junior stock, which includes our common stock, from time to time out of any assets legally available for such payment, and the holders of Series B Preferred Stock or parity stock shall not be entitled to participate in any such dividend.

Redemption

The Series B Preferred Stock is perpetual and has no maturity date, and is not subject to any mandatory redemption, sinking fund or other similar provisions. The holders of the Series B Preferred Stock will not have any right to require the redemption or repurchase of their shares of Series B Preferred Stock.

We may, at our option, redeem the Series B Preferred Stock (1) in whole or in part, from time to time, on any dividend payment date on or after December 15, 2024, or (2) in whole but not in part at any time within 90 days following a “regulatory capital treatment event,” in each case at a redemption price equal to \$25 per share, plus the per share amount of any declared and unpaid dividends, without regard to any undeclared dividends, on the Series B Preferred Stock prior to the date fixed for redemption, which we refer to as the redemption date. Any declared but unpaid dividends payable on a redemption date that occurs subsequent to the applicable dividend record date will not be paid to the holder entitled to receive the redemption price on the redemption date, but rather will be paid to the holder of record of the redeemed shares on such record date relating to the applicable dividend payment date. Investors should not expect us to redeem the Series B Preferred Stock on or after the date it becomes redeemable at our option.

We are a bank holding company regulated by the Federal Reserve. We intend to treat the Series B Preferred Stock as “Additional Tier 1” capital (or its equivalent) for purposes of the capital adequacy rules of the Federal Reserve (or, as and if applicable, the capital adequacy rules or regulations of any successor appropriate federal banking agency) applicable to us.

Table of Contents

A “regulatory capital treatment event” means the good faith determination by us that, as a result of any:

- amendment to, or change in, the laws, rules or regulations of the United States or any political subdivision of or in the United States (including, for the avoidance of doubt, any agency or instrumentality of the United States, including the Federal Reserve and other appropriate federal bank regulatory agencies) that is enacted or becomes effective after the initial issuance of any share of the Series B Preferred Stock;
- proposed change in those laws, rules or regulations that is announced or becomes effective after the initial issuance of any share of the Series B Preferred Stock; or
- official administrative decision or judicial decision or administrative action or other official pronouncement interpreting or applying those laws, rules or regulations or policies with respect thereto that is announced or becomes effective after the initial issuance of any share of the Series B Preferred Stock;

there is more than an insubstantial risk that we will not be entitled to treat the full liquidation preference amount of \$25 per share of the Series B Preferred Stock then outstanding as additional Tier 1 capital (or its equivalent) for purposes of the capital adequacy rules or regulations of the Federal Reserve (or, as and if applicable, the capital adequacy rules or regulations of any successor appropriate federal banking agency) as then in effect and applicable, for as long as any share of Series B Preferred Stock is outstanding. “Appropriate federal banking agency” means the “appropriate federal banking agency” with respect to us as that term is defined in Section 3(q) of the Federal Deposit Insurance Act or any successor provision.

Under regulations applicable to us, we may not exercise our option to redeem any shares of preferred stock without obtaining the prior approval of the Federal Reserve (or any successor appropriate federal banking agency). Under such regulations, unless the Federal Reserve (or any successor appropriate federal banking agency) authorizes us to do otherwise in writing, we may not redeem the Series B Preferred Stock unless it is replaced with other Tier 1 capital instruments or unless we can demonstrate to the satisfaction of the Federal Reserve (or any successor appropriate federal banking agency) that following redemption, we will continue to hold capital commensurate with its risk.

If shares of the Series B Preferred Stock are to be redeemed, the notice of redemption shall be given to the holders of record of the Series B Preferred Stock to be redeemed, by first class mail, postage prepaid, addressed to the holders of record of such shares to be redeemed at their respective last addresses appearing on our stock register not less than 30 days nor more than 60 days prior to the date fixed for redemption thereof (provided that, if the shares of Series B Preferred Stock are held in book-entry form through The Depository Trust Company, or DTC, we may give such notice in any manner permitted by DTC). Each notice of redemption will include a statement setting forth:

- the redemption date;
- the number of shares of the Series B Preferred Stock to be redeemed and, if less than all the shares held by such holder are to be redeemed, the number of such shares to be redeemed from such holder;
- the redemption price; and
- that dividends on the shares to be redeemed will cease to accrue on the redemption date.

If notice of redemption of any shares of Series B Preferred Stock has been duly given and if the funds necessary for such redemption have been set aside by us for the benefit of the holders of any shares of Series B Preferred Stock so called for redemption, then, on and after the redemption date, dividends will cease to accrue on such shares of Series B Preferred Stock, such shares of Series B Preferred Stock shall no longer be deemed outstanding and all rights of the holders of such shares will terminate, except the right to receive the redemption price, without interest.

Table of Contents

In case of any redemption of only part of the shares of the Series B Preferred Stock at the time outstanding, the shares to be redeemed shall be selected either *pro rata*, by lot or in such other manner as we may determine to be equitable and permitted by DTC and the rules of any national securities exchange on which the Series B Preferred Stock is listed.

Liquidation Rights

In the event that we voluntarily or involuntarily liquidate, dissolve or wind up our affairs, holders of the Series B Preferred Stock are entitled to receive out of our assets available for distribution to shareholders, after satisfaction of liabilities or obligations to creditors, if any, and subject to the rights of holders of any shares of capital stock then outstanding ranking senior to or on parity with the Series B Preferred Stock with respect to distributions upon the voluntary or involuntary liquidation, dissolution or winding-up of our business and affairs, including the Series A Preferred Stock, and before we make any distribution of assets to the holders of our common stock or any other class or series of our capital stock ranking junior to the Series B Preferred Stock with respect to distributions upon our liquidation, dissolution or winding-up, an amount per share equal to the liquidation preference of \$25 per share plus any declared and unpaid dividends prior to the payment of the liquidating distribution (but without any amount in respect of dividends that have not been declared prior to the date of payment of the liquidating distribution). After payment of the full amount of the liquidating distribution described above, the holders of the Series B Preferred Stock shall not be entitled to any further participation in any distribution of our assets.

In any such distribution, if our assets are not sufficient to pay the liquidation preference in full to all holders of Series B Preferred Stock and all holders of any shares of our capital stock ranking as to any such liquidation distribution on parity with the Series B Preferred Stock, including the Series A Preferred Stock, the amounts paid to the holders of Series B Preferred Stock and to such other shares will be paid *pro rata* in accordance with the respective aggregate liquidation preferences of those holders. In any such distribution, the “liquidation preference” of any holder of preferred stock means the amount otherwise payable to such holder in such distribution (assuming no limitation on our assets available for such distribution), including any declared but unpaid dividends (and, in the case of any holder of stock other than the Series B Preferred Stock and on which dividends accrue on a cumulative basis, an amount equal to any unpaid, accrued, cumulative dividends, whether or not declared, as applicable). If the liquidation preference per share of Series B Preferred Stock has been paid in full to all holders of Series B Preferred Stock and the liquidation preference per share of any other capital stock ranking on parity with the Series B Preferred Stock as to liquidation rights has been paid in full, the holders of our common stock or any other capital stock ranking, as to liquidation rights, junior to the Series B Preferred Stock will be entitled to receive all of our remaining assets according to their respective rights and preferences.

The Series B Preferred Stock may be fully subordinate to interests held by the U.S. government in the event we enter into a receivership, insolvency, liquidation, or similar proceeding, including a proceeding under the “orderly liquidation authority” provisions of the Dodd-Frank Act.

For purposes of the liquidation rights, neither the sale, conveyance, exchange or transfer of all or substantially all of our assets or business, nor the consolidation or merger by us with or into any other entity or by another entity with or into us, whether for cash, securities or other property, individually or as part of a series of transactions, will constitute a liquidation, dissolution or winding-up of our affairs.

Voting Rights

Except as provided below and as determined by our board of directors, or a duly authorized committee thereof or as otherwise expressly required by law, the holders of the Series B Preferred Stock will have no voting rights.

Whenever dividends on any shares of the Series B Preferred Stock, or any parity stock upon which similar voting rights have been conferred (“special voting preferred stock”), shall have not been declared and paid for an

aggregate amount equal to the amount of dividends payable on the Series B Preferred Stock as contemplated herein for any dividend periods that, in aggregate, equal 18 months, whether or not for consecutive dividend periods (which we refer to as a “nonpayment”), the holders of the Series B Preferred Stock, voting together as a class with holders of any special voting preferred stock then outstanding, including the Series A Preferred Stock, will be entitled to vote (based on respective liquidation preferences) for the election of a total of two additional members of our board of directors (which we refer to as the “preferred directors”); provided that our board of directors shall at no time include more than two preferred directors; provided further that the election of any such preferred directors shall not cause us to violate the corporate governance requirement of the New York Stock Exchange (or any other exchange on which our securities may be listed) that listed companies must have a majority of independent directors. In that event, the number of directors on our board of directors shall automatically increase by two and, at the request of any holder of Series B Preferred Stock, a special meeting of the holders of Series B Preferred Stock and such special voting preferred stock, including the Series A Preferred Stock, for which dividends have not been paid shall be called for the election of the two directors (unless such request is received less than 90 days before the date fixed for the next annual or special meeting of the shareholders, in which event such election shall be held at such next annual or special meeting of shareholders), followed by such election at each subsequent annual meeting. These voting rights will continue until full dividends have been paid (or declared and a sum sufficient for the payment of such dividends has been set aside for payment) on the Series B Preferred Stock and such special voting preferred stock for dividend periods that in the aggregate equal at least 12 consecutive months following the nonpayment.

If and when full dividends have been paid (or declared and a sum sufficient for the payment of such dividends has been set aside for payment) for dividend periods that, in the aggregate, equal at least 12 consecutive months, following a nonpayment on the Series B Preferred Stock and such special voting preferred stock, the holders of the Series B Preferred Stock and such special voting preferred stock shall be divested of the foregoing voting rights (subject to retesting in the event of each subsequent nonpayment) and the term of office of each preferred director so elected shall terminate and the number of directors on our board of directors shall automatically decrease by two.

Any preferred director may be removed at any time without cause by the holders of a majority of the outstanding shares of the Series B Preferred Stock and such special voting preferred stock, voting together as a class, when they have the voting rights described above. So long as a nonpayment shall continue, any vacancy in the office of a preferred director (other than prior to the initial election of the preferred directors) may be filled by the written consent of the preferred director remaining in office, or if none remains in office, by a vote of the holders of a majority of the outstanding shares of Series B Preferred Stock and such special voting preferred stock, voting together as a class, to serve until the next annual meeting of shareholders; provided that the filling of any such vacancy shall not cause us to violate the corporate governance requirement of the New York Stock Exchange (or any other exchange on which our securities may be listed) that listed companies must have a majority of independent directors. The preferred directors shall each be entitled to one vote per director on any matter.

Under regulations adopted by the Federal Reserve, if the holders of one or more series of preferred stock are or become entitled to vote for the election of directors, such series entitled to vote for the same director(s) will be deemed a class of voting securities and a company holding 25% or more of the series, or 10% or more if it otherwise exercises a “controlling influence” over us, will be subject to regulation as a bank holding company under the Bank Holding Company Act of 1956, as amended (the “BHC Act”). In addition, if the series is/are deemed to be a class of voting securities, any other bank holding company will be required to obtain the prior approval of the Federal Reserve under the BHC Act to acquire or retain more than 5% of that series. Any other person (other than a bank holding company) will be required to obtain the non-objection of the Federal Reserve under the Change in Bank Control Act of 1978, as amended, to acquire or retain 10% or more of that series. While we do not believe the Series B Preferred Stock are considered “voting securities” currently, holders of such stock should consult their own counsel with regard to regulatory implications. A holder or group of holders

may also be deemed to control us if they own more than one-third of our total equity, both voting and non-voting, aggregating all shares held by the holders across all classes of stock.

So long as any shares of Series B Preferred Stock remain outstanding, in addition to any other vote or consent of shareholders required by law or our certificate of incorporation, the affirmative vote or consent of the holders of at least two-thirds of all of the then-outstanding shares of Series B Preferred Stock entitled to vote thereon, voting separately as a single class, shall be required to:

- authorize, create, issue or increase the authorized amount of any class or series of our capital stock ranking senior to the Series B Preferred Stock with respect to payment of dividends or as to distributions upon our liquidation, dissolution or winding-up, or issue any obligation or security convertible into or exchangeable for evidencing the right to purchase any such class or series of our capital stock;
- amend, alter or repeal the provisions of our certificate of incorporation, including the Certificate of Designations creating the Series B Preferred Stock, whether by merger, consolidation or otherwise, so as to materially and adversely affect the special powers, preferences, privileges or rights of the Series B Preferred Stock, taken as a whole; or
- consummate a binding share-exchange or reclassification involving the Series B Preferred Stock, or sale, conveyance, exchange or transfer of all or substantially all of our assets or business or a merger or consolidation of us with or into another entity, unless in each case, the shares of the Series B Preferred Stock (i) remain outstanding or (ii) are converted into or exchanged for preference securities of the surviving entity or any entity controlling such surviving entity and such new preference securities have powers, preferences, privileges and rights that are not materially less favorable to the holders thereof than the powers, preferences, privileges and rights of the Series B Preferred Stock, taken as a whole.

When determining the application of the voting rights described in this section, the authorization, creation and issuance, or an increase in the authorized or issued amount of, junior stock or any class or series of capital stock that by its terms expressly provides that it ranks on parity with the Series B Preferred Stock with respect to the payment of dividends (whether such dividends are cumulative or non-cumulative) and as to distributions upon our liquidation, dissolution or winding-up, or any securities convertible into or exchangeable or exercisable for junior stock or any class or series of capital stock, shall not be deemed to materially and adversely affect the special powers, preferences, privileges or rights, and shall not require the affirmative vote or consent of, the holders of any outstanding shares of Series B Preferred Stock.

The foregoing voting provisions will not apply if, at or prior to the time when the act with respect to which such vote would otherwise be required shall be effected, all outstanding shares of Series B Preferred Stock shall have been redeemed or called for redemption upon proper notice and sufficient funds shall have been set aside by us for the benefit of the holders of the Series B Preferred Stock to effect such redemption.

Transfer Agent and Registrar

Computershare Trust Company, N.A will be the transfer agent, registrar, dividend disbursement agent and redemption agent for the Series B Preferred Stock.

original issue date to, but excluding, June 15, 2022. Thereafter, the shares pay at a floating rate per annum equal to three-month LIBOR on the related dividend determination date plus a spread of 3.972% per annum. Dividends are paid semi-annually in arrears on June 15 and December 15, beginning on December 15, 2017 and ending on June 15, 2022. Thereafter, dividends will be paid quarterly in arrears on March 15, June 15, September 15 and December 15 of each year. CIT may redeem the Series A Preferred Stock at its option, at a redemption price equal to \$1,000 per share, plus any declared and unpaid dividends, without regard to any undeclared dividends, (i) in whole or in part, from time to time, on any dividend payment date on or after June 15, 2022, or (ii) in whole, but not in part, within 90 days following the occurrence of a “regulatory capital treatment event”.

MATERIAL UNITED STATES FEDERAL INCOME TAX CONSIDERATIONS

This section describes the material United States federal income tax consequences relevant to the purchase, ownership and disposition of the Series B Preferred Stock.

The summary is limited to taxpayers who will hold the Series B Preferred Stock as capital assets for tax purposes and who purchase the Series B Preferred Stock in the initial offering at the initial offering price. This section addresses only United States federal income taxation and does not discuss all of the tax consequences that may be relevant to you in light of your individual circumstances, including any United States federal tax consequences other than income tax consequences (such as estate and gift tax consequences), any foreign, state, or local tax consequences, or any tax consequences arising under the Medicare contribution tax on net investment income or the alternative minimum tax. This section does not apply to you if you are a member of a class of holders subject to special rules, including:

- a dealer in securities;
- a trader in securities that elects to use a mark-to-market method of accounting for securities holdings;
- a bank;
- an insurance company;
- a thrift institution;
- a regulated investment company;
- a tax-exempt entity;
- a person subject to special tax accounting rules as a result of any item of gross income being taken into account on an applicable financial statement;
- a partnership or other pass through entity for United States federal income tax purposes or an investor in such an entity;
- a person that purchases or sells the Series B Preferred Stock as part of a wash sale for tax purposes;
- a person that owns the Series B Preferred Stock as part of a straddle or a hedging or conversion transaction for tax purposes;
- a United States holder (as defined below) that holds notes through a non-United States broker or other non-United States intermediary;
- a United States holder (as defined below) whose functional currency for tax purposes is not the U.S. dollar; or
- a United States expatriate.

This section is based on the United States Internal Revenue Code of 1986, as amended (the “Code”), its legislative history, existing and proposed regulations under the Code, published rulings and court decisions, all as currently in effect. These authorities are subject to change or different interpretations, possibly on a retroactive basis.

If an entity treated as a partnership for United States federal income tax purposes holds the Series B Preferred Stock, the United States federal income tax treatment of a partner will generally depend on the status of the partner and the tax treatment of the partnership. A partner in a partnership considering an investment in the Series B Preferred Stock should consult its own tax advisor with regard to the United States federal income tax treatment of an investment in the Series B Preferred Stock.

Please consult your own tax advisor concerning the consequences of owning the Series B Preferred Stock in your particular circumstances under the Code and the laws of any other taxing jurisdiction.

Table of Contents

United States Holders

This subsection describes the United States federal income tax consequences of an investment in the Series B Preferred Stock to a United States holder. You are a United States holder if you are a beneficial owner of a share of the Series B Preferred Stock and, for United States federal income tax purposes, you are:

- an individual who is a citizen or resident of the United States;
- a domestic corporation;
- an estate whose income is subject to United States federal income tax regardless of its source; or
- a trust if it (i) is subject to the primary supervision of a court within the United States and one or more United States persons have the authority to control all substantial decisions of the trust or (ii) has a valid election in effect under applicable United States Treasury regulations to be treated as a United States person.

If you are not a United States holder, this subsection does not apply to you and you should refer to “—Non-United States Holders” below.

Distributions on the Series B Preferred Stock

Distributions with respect to our Series B Preferred Stock will constitute dividends to the extent made out of our current or accumulated earnings and profits, as determined under United States federal income tax principles. If a distribution exceeds our current and accumulated earnings and profits, the excess will be treated as a non-taxable return of capital to the extent of your tax basis in our Series B Preferred Stock, determined separately for each share (and you will reduce your tax basis accordingly), and thereafter as capital gain from the sale or exchange of such Series B Preferred Stock. Although we presently have accumulated earnings and profits, we may not have sufficient current or accumulated earnings and profits during future fiscal years for the distributions on our Series B Preferred Stock to qualify as dividends for U.S. federal income tax purposes.

If you are a corporation, dividends received by you will be eligible for the dividends-received deduction if you meet certain holding period and other applicable requirements. If you are a noncorporate United States holder, dividends paid to you will qualify for taxation at preferential rates applicable to “qualified dividends” if you meet certain holding period and other applicable requirements. United States holders should consult their own tax advisors regarding the availability of the reduced qualified dividend tax rate in light of their particular circumstances.

Sale or Exchange of the Series B Preferred Stock Other than by Redemption

If you sell or otherwise dispose of your Series B Preferred Stock (other than by redemption), you will generally recognize capital gain or loss, if any, equal to the difference between the amount realized upon the disposition and your adjusted tax basis of the Series B Preferred Stock (determined separately for each share). Capital gain of a noncorporate United States holder is generally taxed at preferential rates where the holder has a holding period greater than one year.

Redemption of the Series B Preferred Stock

Redemption of your Series B Preferred Stock generally would be a taxable event. You would be treated as if you had sold your Series B Preferred Stock if the redemption:

- results in a complete termination of your stock interest in us;
- is “substantially disproportionate” with respect to you;
- is not essentially equivalent to a dividend with respect to you; or
- results in our “partial liquidation”.

Table of Contents

In determining whether any of these tests has been met, shares of Series B Preferred Stock or other classes of our stock considered to be owned by you by reason of certain constructive ownership rules set forth in Section 318 of the Code, as well as any such shares actually owned, must be taken into account under certain circumstances.

If we redeem your Series B Preferred Stock in a redemption that meets one of the tests listed above, you generally would recognize taxable gain or loss equal to the amount of cash received by you less your adjusted tax basis in the Series B Preferred Stock redeemed (determined separately for each share). This gain or loss would be long-term capital gain or capital loss if you have held the Series B Preferred Stock for more than one year. Because the determination as to whether any of the tests listed above is satisfied with respect to any particular holder will depend upon the facts and circumstances as of the time the determination is made, you should consult your tax advisor regarding the treatment of a redemption.

If a redemption does not meet any of the tests described above, you generally would be taxed on the cash you receive as a dividend to the extent paid out of our current and accumulated earnings and profits. Any amount in excess of our current or accumulated earnings and profits would first reduce your tax basis in the Series B Preferred Stock and possibly in any shares of other classes of our stock owned by you (determined separately for each share) and thereafter would be treated as capital gain. If a redemption of the Series B Preferred Stock is treated as a distribution that is taxable as a dividend, you should consult with your own tax advisor regarding the allocation of your basis between the redeemed shares and any shares of Series B Preferred Stock (or other class of our stock) that you still hold (or are held by a person related to you).

If a redemption of any Series B Preferred Stock were treated as a dividend pursuant to the foregoing test, such dividend may be treated as an “extraordinary dividend,” subject to special rules in the Code. Generally, a corporate United States holder that receives an extraordinary dividend with respect to the Series B Preferred Stock is required to reduce its adjusted tax basis, but not below zero, in such Series B Preferred Stock by the portion of such dividend that is not taxed because of the dividends received deduction and is required to recognize taxable gain to the extent such portion of the dividend exceeds the holder’s adjusted tax basis in such Series A Preferred Stock. A non-corporate United States holder who receives an “extraordinary dividend” would be required to treat any losses on the sale of the Series B Preferred Stock as long-term capital losses to the extent such dividend qualifies as qualified dividend income. The deductibility of capital losses is subject to limitations. If you are a corporate United States holder, please consult your tax advisor with respect to the possible application of the “extraordinary dividend” rules to a redemption of your Series B Preferred Stock.

Non-United States Holders

This section summarizes the material United States federal income tax consequences of the purchase, ownership and disposition of the Series B Preferred Stock by a Non-United States holder. You are a Non-United States holder if you are a beneficial owner of a share of the Series B Preferred Stock and you are, for United States federal income tax purposes:

- a nonresident alien individual;
- a foreign corporation; or
- a foreign estate or trust.

Distributions on the Series B Preferred Stock

Except as described below, if you are a Non-United States holder of the Series B Preferred Stock, dividends (including any redemption treated as a dividend for U.S. federal income tax purposes as discussed above under “United States Holders—Redemption of the Series B Preferred Stock”) paid to you that are not effectively connected with your conduct of a trade or business within the United States will be subject to withholding of

Table of Contents

United States federal income tax at a 30% rate or at a lower rate if you are eligible for the benefits of an income tax treaty that provides for a lower rate. Even if you are eligible for a lower treaty rate, the applicable withholding agent will generally be required to withhold at a 30% rate (rather than at the lower treaty rate) on dividend payments to you, unless you have furnished to such withholding agent:

- a valid Internal Revenue Service Form W-8BEN or Internal Revenue Service Form W-8BEN-E, or an acceptable substitute form upon which you certify your status as a person who is not a United States person and your entitlement to the lower treaty rate with respect to such payments; or
- in the case of payments made outside the United States to an offshore account (generally, an account maintained by you at an office or branch of a bank or other financial institution at any location outside the United States), other documentary evidence establishing your entitlement to the lower treaty rate in accordance with United States Treasury regulations.

If you are eligible for a reduced rate of United States federal withholding tax under a tax treaty, you may obtain a refund of any amounts withheld in excess of that rate by filing a timely refund claim with the United States Internal Revenue Service.

If dividends paid to you are “effectively connected” with your conduct of a trade or business within the United States, an applicable withholding agent generally is not required to withhold tax from the dividends unless an applicable income tax treaty provides otherwise. To be exempt from United States federal withholding tax with respect to any “effectively connected dividends,” you must have furnished to the withholding agent a valid Internal Revenue Service Form W-8ECI or other applicable Internal Revenue Service Form W-8 (or an acceptable substitute form) upon which you certify that:

- you are not a United States person; and
- the dividends are effectively connected with your conduct of a trade or business within the United States.

Unless an applicable income tax treaty provides otherwise, “effectively connected” dividends are taxed to Non-United States holders on a net income basis at rates applicable to United States citizens, resident aliens and domestic United States corporations (as applicable) in generally the same manner as if the Non-United States holder were a United States holder.

If you are a corporate Non-United States holder, you may, under certain circumstances, be subject to an additional “branch profits tax” on your effectively connected earnings and profits (subject to adjustments) at a 30% rate or at a lower rate if you are eligible for the benefits of an income tax treaty that provides for a lower rate.

Gain on Disposition or Redemption of the Series B Preferred Stock

If you are a Non-United States holder, subject to the discussion below regarding FATCA withholding (as defined below) and backup withholding, you generally will not be subject to United States federal income tax on any gain that you recognize on a disposition (including a redemption that is treated as a disposition for United States federal income tax purposes as discussed above under “United States Holders—Redemption of the Series B Preferred Stock”) of the Series B Preferred Stock unless:

- the gain is “effectively connected” with your conduct of a trade or business in the United States, and the gain is attributable to a permanent establishment that you maintain in the United States, if that is required by an applicable income tax treaty as a condition for subjecting you to United States taxation on a net income basis;
- you are an individual, you are present in the United States for 183 or more days in the taxable year of the disposition and certain other conditions exist; or

Table of Contents

- we are or have been a United States real property holding corporation for United States federal income tax purposes and certain other conditions are met.

If you are a Non-United States holder described in the first bullet point above you will be subject to tax on the net gain derived from the disposition under regular graduated United States federal income tax rates in generally the same manner as if the Non-United States holder were a United States holder. If you are a corporate Non-United States holder, you may also, under certain circumstances, be subject to an additional “branch profits tax” on your effectively connected earnings and profits (subject to adjustments) at a 30% rate or at a lower rate if you are eligible for the benefits of an income tax treaty that provides for a lower rate.

If you are an individual Non-United States holder described in the second bullet point above you will be subject to a flat 30% tax on the gain derived from the disposition, which may be offset by certain United States source capital losses, even though you are not considered a resident of the United States.

We have not been, are not and do not anticipate becoming a United States real property holding corporation for United States federal income tax purposes.

As discussed above in “United States Holders—Redemption of the Series B Preferred Stock”, certain redemptions may be treated as dividends for United States federal income tax purposes. See “—Distributions on the Series B Preferred Stock”, above, for a discussion of the tax treatment of such redemptions. If an applicable withholding agent is unable to determine whether the redemption should be treated as a distribution in your particular circumstances, such withholding agent may withhold tax at a 30% rate on the full amount you receive (in which case, if you are in fact eligible for disposition treatment, you may be eligible to obtain a refund of any excess tax withheld).

FATCA Withholding

Pursuant to sections 1471 through 1474 of the Code, commonly known as the Foreign Account Tax Compliance Act (“FATCA”), a 30% withholding tax (“FATCA withholding”) may be imposed on certain payments to you or to certain foreign financial institutions, investment funds and other non-United States persons receiving payments on your behalf if you or such persons fail to comply with certain information reporting and withholding requirements. Payments of dividends that you receive in respect of the Series B Preferred Stock could be affected by this withholding if you are subject to the FATCA information reporting requirements and fail to comply with them or if you hold the Series B Preferred Stock through a non-United States person (e.g., a foreign bank or broker) that fails to comply with these requirements (even if payments to you would not otherwise have been subject to FATCA withholding). You should consult your own tax advisors regarding the relevant U.S. law and other official guidance on FATCA withholding.

Backup Withholding and Information Reporting

If you are a non-corporate United States holder, information reporting requirements, on Internal Revenue Service Form 1099, generally will apply to dividend payments or other taxable distributions made to you, and the payment of proceeds to you from the sale or other disposition of Series B Preferred Stock.

Additionally, backup withholding may apply to such payments if you fail to comply with applicable certification requirements or are notified by the Internal Revenue Service that you are subject to backup withholding because you previously have failed to report all interest and dividends required to be shown on your federal income tax returns.

If you are a Non-United States holder, applicable withholding agents are required to report payments of dividends on Internal Revenue Service Form 1042-S even if the payments are exempt from withholding. You are otherwise generally exempt from backup withholding and information reporting requirements with respect to

Table of Contents

dividend payments and the payment of the proceeds from the sale or other disposition of preferred stock effected at a United States office of a broker provided that either (i) you have furnished a valid Internal Revenue Service Form W-8 or other documentation upon which the applicable withholding agent may rely to treat the payments as made to a non-United States person, or (ii) you otherwise establish an exemption.

Payment of the proceeds from the sale or other disposition of Series B Preferred Stock effected at a non-United States office of a broker generally will not be subject to information reporting or backup withholding. However, a sale or other disposition effected at a non-United States office of a broker could be subject to information reporting in the same manner as a sale or other disposition within the United States (and in certain cases may be subject to backup withholding as well) if (i) the broker has certain connections to the United States, (ii) the proceeds or confirmation are sent to the United States or (iii) the sale or other disposition has certain other specified connections with the United States.

Backup withholding is not an additional tax. You generally may obtain a refund of any amounts withheld under the backup withholding rules that exceed your income tax liability by filing a timely refund claim with the Internal Revenue Service.

THE PRECEDING DISCUSSION OF THE MATERIAL UNITED STATES FEDERAL INCOME TAX CONSEQUENCES IS FOR GENERAL INFORMATION PURPOSES ONLY AND IS NOT BEING PROVIDED AS, OR INTENDED TO CONSTITUTE, TAX ADVICE. ACCORDINGLY, YOU SHOULD CONSULT YOUR OWN TAX ADVISOR AS TO THE PARTICULAR TAX CONSEQUENCES TO YOU OF PURCHASING, HOLDING OR DISPOSING OF THE SERIES B PREFERRED STOCK, INCLUDING THE APPLICABILITY AND EFFECT OF ANY STATE, LOCAL, FOREIGN OR OTHER TAX LAWS, AND OF ANY CHANGES OR PROPOSED CHANGES IN APPLICABLE LAW.

BENEFIT PLAN INVESTOR CONSIDERATIONS

A fiduciary of a pension, profit-sharing or other employee benefit plan subject to the U.S. Employee Retirement Income Security Act of 1974, as amended (“ERISA”) (each, a “Plan”), should consider the fiduciary standards of ERISA in the context of the Plan’s particular circumstances before authorizing an investment in the securities offered hereby. Among other factors, the fiduciary should consider whether the investment would satisfy the prudence and diversification requirements of ERISA and would be consistent with the documents and instruments governing the Plan, and whether the investment would involve a prohibited transaction under Section 406 of ERISA or Section 4975 of the Internal Revenue Code.

Section 406 of ERISA and Section 4975 of the Internal Revenue Code prohibit Plans, as well as individual retirement accounts, Keogh plans and other plans that are subject to Section 4975 of the Internal Revenue Code (also “Plans”), from engaging in certain transactions involving “plan assets” with persons who are “parties in interest” under ERISA or “disqualified persons” under the Internal Revenue Code with respect to the Plan. A violation of these prohibited transaction rules may result in excise tax or other liabilities under ERISA or the Internal Revenue Code for those persons and penalties and liabilities under ERISA and the Internal Revenue Code for the fiduciary of the Plan, unless exemptive relief is available under an applicable statutory, regulatory or administrative exemption. Employee benefit plans that are governmental plans (as defined in Section 3(32) of ERISA), certain church plans (as defined in Section 3(33) of ERISA) and non-U.S. plans (as described in Section 4(b)(4) of ERISA) (“Non-ERISA Arrangements”) are not subject to the requirements of Section 406 of ERISA or Section 4975 of the Internal Revenue Code but may be subject to provisions under other applicable federal, state, local, non-U.S. or other laws or regulations that are similar to the foregoing provisions of ERISA or the Internal Revenue Code (“Similar Laws”).

Each Plan, Plan Asset Entity (as defined below) and Non-ERISA Arrangement should consider the fact that none of us, the underwriters nor any of our or their respective affiliates (the “Transaction Parties”) will act as a fiduciary to any Plan, Plan Asset Entity or Non-ERISA Arrangement with respect to the decision to acquire the securities offered hereby and is not undertaking to provide impartial investment advice, or to give advice in a fiduciary capacity, with respect to such decision.

The acquisition or disposition of the securities offered hereby by a Plan or any entity whose underlying assets include “plan assets” by reason of any Plan’s investment in the entity (a “Plan Asset Entity”) with respect to which we, certain of our affiliates or the underwriters are or become a party in interest or disqualified person may result in a direct or indirect prohibited transaction under Section 406 of ERISA or Section 4975 of the Internal Revenue Code, unless the securities offered hereby are acquired pursuant to an applicable exemption. The U.S. Department of Labor has issued prohibited transaction class exemptions, or “PTCEs”, that may provide exemptive relief if required for direct or indirect prohibited transactions that may arise from the purchase of the securities offered hereby. These exemptions include, without limitation, PTCE 84-14 (for certain transactions determined by independent qualified professional asset managers), PTCE 90-1 (for certain transactions involving insurance company pooled separate accounts), PTCE 91-38 (for certain transactions involving bank collective investment funds), PTCE 95-60 (for transactions involving certain insurance company general accounts), and PTCE 96-23 (for transactions managed by in-house asset managers). In addition, Section 408(b)(17) of ERISA and Section 4975(d)(20) of the Internal Revenue Code provide limited relief from the prohibited transactions provisions of ERISA and Section 4975 of the Internal Revenue Code for certain transactions, provided that neither the issuer of securities offered hereby nor any of its affiliates (directly or indirectly) have or exercise any discretionary authority or control or render any investment advice with respect to the assets of any Plan involved in the transaction, and provided further that the Plan pays no more and receives no less than “adequate consideration” in connection with the transaction (the “service provider exemption”). There can be no assurance that all of the conditions of any such exemptions will be satisfied.

Because of the foregoing, the securities offered hereby should not be acquired by any person investing “plan assets” of any Plan, Plan Asset Entity or Non-ERISA Arrangement, unless such acquisition will not constitute a

Table of Contents

non-exempt prohibited transaction under ERISA or the Internal Revenue Code or similar violation of any applicable Similar Laws.

Any purchaser of the securities offered hereby or any interest therein will be deemed to have represented by its acquisition of the securities offered hereby that either (1) it is not a Plan, a Plan Asset Entity or a Non-ERISA Arrangement and is not purchasing the securities offered hereby on behalf of or with the assets of any Plan, Plan Asset Entity or Non-ERISA Arrangement or (2) the acquisition of the securities offered hereby by it will not constitute a non-exempt prohibited transaction under Section 406 of ERISA or Section 4975 of the Internal Revenue Code or a similar violation under any applicable Similar Laws, and none of the Transaction Parties is its fiduciary in connection with the acquisition of the securities offered hereby.

Due to the complexity of these rules and the penalties that may be imposed upon persons involved in non-exempt prohibited transactions, it is important that fiduciaries or other persons considering purchasing the securities offered hereby on behalf of, or with the assets of, any Plan, a Plan Asset Entity, or Non-ERISA Arrangement consult with their counsel regarding the availability of exemptive relief under any of the PTCEs listed above or the service provider exemption, or the potential consequences of any acquisition under Similar Laws, as applicable. Purchasers of the securities offered hereby have exclusive responsibility for ensuring that their acquisition of the securities offered hereby do not violate the fiduciary rules of ERISA or the prohibited transaction rules of ERISA or the Code or any similar provisions of Similar Laws. The sale of any securities offered hereby to a Plan, Plan Asset Entity, or Non-ERISA Arrangement is in no respect a representation by us, the underwriters or any of our or their affiliates or representatives that such an investment meets all relevant legal requirements with respect to investments by any Plans, Plan Asset Entities, or Non-ERISA Arrangements generally or any particular Plan, Plan Asset Entity, or Non-ERISA Arrangement or that such an investment is appropriate for any Plans, Plan Asset Entities, or Non-ERISA Arrangements generally or any particular Plan, Plan Asset Entity, or Non-ERISA Arrangement.

Subject to the terms and conditions set forth in the underwriting agreement, the underwriters have agreed, severally and not jointly, to purchase all of the Series B Preferred Stock sold under the underwriting agreement, if any Series B Preferred Stock is purchased. The underwriting agreement also provides that, if an underwriter defaults, the purchase commitments of non-defaulting underwriters may be increased under certain circumstances or this offering of the Series B Preferred Stock may be terminated.

The underwriters are offering the Series B Preferred Stock, subject to prior sale, when, as and if issued to, and accepted by, them, subject to approval of legal matters by their counsel, including the validity of the Series B Preferred Stock and other conditions contained in the underwriting agreement, such as the receipt by the underwriters of officer's certificates and legal opinions. The underwriters reserve the right to withdraw, cancel or modify offers to the public and to reject orders in whole or in part.

We have agreed to indemnify the underwriters, their controlling persons and any affiliate of such underwriter that is acting as a selling agent of such underwriter in connection with the distribution of Series B Preferred Stock against certain liabilities in connection with this offering, including liabilities under the Securities Act, or to contribute to payments the underwriters (and their respective affiliates and controlling persons) may be required to make in respect of those liabilities.

At our request, the underwriters have reserved up to 2.5% of the Series B Preferred Stock offered hereby for sales to certain of our executive officers. We do not know if these persons will choose to purchase all or any portion of these reserved Series B Preferred Stock, but any purchases they do make will reduce the number of shares of Series B Preferred Stock available to the general public. Any reserved shares that are not so purchased will be offered by the underwriters to the general public on the same terms as the other shares offered by this prospectus supplement.

Table of Contents

The following table shows the underwriting discounts to be paid by the Company in connection with this offering. The underwriting discount is the difference between the public offering price and the amount the underwriters pay to us to purchase the Series B Preferred Stock. The underwriting discount is as follows:

| | <u>Retail</u> | <u>Institutional</u> |
|-----------|-----------------|----------------------|
| Per share | \$ 0.7875 | \$ 0.2500 |
| Total | \$ 3,212,010.90 | \$ 980,314.00 |

The underwriters have advised us that the underwriters propose initially to offer the Series B Preferred Stock to the public at the public offering price set forth on the cover page of this prospectus supplement and to certain dealers at such price, less a concession not in excess of \$0.50 per share. The underwriter may allow, and such dealers may reallow, a discount not in excess of \$0.45 per share to other dealers. After the initial offering, the public offering price, concession, discounts or any other term of the offering may be changed.

The expenses of the offering, not including the underwriting discount, are estimated at \$500,000 and are payable by us.

The Series B Preferred Stock is a new issue of securities with no established trading market. Application will be made to list the Series B Preferred Stock on the NYSE under the symbol "CITPRB." If approved, we expect trading of the Series B Preferred Stock on the NYSE to begin within the 30-day period after the original issue date. Even if the Series B Preferred Stock is listed, there may be little or no secondary market for the Series B Preferred Stock. We have been advised by the underwriters that they presently intend to make a market in the Series B Preferred Stock, as permitted by applicable laws and regulations. However, they are under no obligation to do so and may discontinue any market-making activities at any time without any notice. We cannot assure the liquidity of the trading market for the Series B Preferred Stock or that an active public market for the Series B Preferred Stock will develop or, if developed, that it will continue. If an active public trading market for the Series B Preferred Stock does not develop or, if developed, continue, the market price and liquidity of the Series B Preferred Stock may be adversely affected. If the Series B Preferred Stock is traded, it may trade at a discount from its initial offering price, depending on prevailing interest rates, the market for similar securities, our operating performance and financial condition, general economic conditions and other factors.

We have agreed that we will not, from the date of this prospectus supplement through the date which is 30 days after such date, without first obtaining the prior written consent of the representatives, directly or indirectly, issue, sell, offer to contract or grant any option to sell, pledge, transfer or otherwise dispose of, any preferred securities of the Company or securities exchangeable for, or convertible into, preferred securities of the Company, except for the Series B Preferred Stock sold to the underwriters pursuant to the underwriting agreement.

In connection with the offering, the underwriters may purchase and sell the Series B Preferred Stock in the open market. These transactions may include short sales and purchases on the open market to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater number of Series B Preferred Stock than they are required to purchase in the offering. The underwriters must close out any short position by purchasing Series B Preferred Stock in the open market. A short position is more likely to be created, if the underwriters are concerned that there may be downward pressure on the price of the Series B Preferred Stock in the open market after pricing that could adversely affect investors who purchase in the offering.

The underwriters may also impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the representatives have repurchased shares sold by or for the account of such underwriter in stabilizing or short covering transactions.

Similar to other purchase transactions, the underwriters' purchases to cover the syndicate short sales may have the effect of raising or maintaining the market price of the Series B Preferred Stock or preventing or

Table of Contents

retarding a decline in the market price of the Series B Preferred Stock. As a result, the price of the Series B Preferred Stock may be higher than the price that might otherwise exist in the open market.

Neither we nor any of the underwriters make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of the Series B Preferred Stock. In addition, neither we nor any of the underwriters make any representation that the underwriters will engage in these transactions or that these transactions, once commenced, will not be discontinued without notice.

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities. The underwriters and their respective affiliates have provided, and may in the future provide, investment banking, commercial banking, financial advisory and other services to us and our affiliates. They have received, or may in the future receive, customary fees and commissions for these transactions.

Affiliates of certain of the other underwriters are lenders and/or agents under our Revolving Credit Facility. Certain of the underwriters are also acting as underwriters of the subordinated notes offering being made pursuant a separate prospectus supplement.

In the ordinary course of their various business activities, the underwriters and their respective affiliates may make or hold a broad array of investments, including serving as counterparties to certain derivative and hedging arrangements, and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers, and such investment and securities activities may involve securities and/or instruments of the Company. The underwriters and their respective affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or instruments and may at any time hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments. If any of the underwriters or their affiliates has a lending relationship with us, certain of those underwriters or their affiliates routinely hedge, and certain other of those underwriters or their affiliates have hedged and/or may in the future hedge, their credit exposure to us consistent with their customary risk management policies. Typically, these underwriters and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities, including potentially the Series B Preferred Stock. Any such credit default swaps or short positions could adversely affect future trading prices of the Series B Preferred Stock.

We expect that delivery of the Series B Preferred Stock will be made to investors against payment thereof on or about the date specified in the last paragraph of the cover page of this prospectus supplement, which will be the third business day following the date of this prospectus supplement (such settlement being referred to as “T+3”). Under Rule 15c6-1 under the Exchange Act, trades in the secondary market are required to settle in two business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade the Series B Preferred Stock on the date of this prospectus supplement will be required, by virtue of the fact that the Series B Preferred Stock will initially settle in T+3, to specify an alternate settlement cycle at the time of any such trade to prevent a failed settlement and should consult their own advisors.

DESCRIPTION OF DEBT SECURITIES

This section contains a description of the general terms and provisions of the debt securities that may be offered by this prospectus. The following description of the indentures and our debt securities is only a summary of the material terms, does not purport to be complete, and may be supplemented in amendments to the registration statement of which this prospectus is a part and in prospectus supplements. The material specific financial, legal, and other terms, as well as any material U.S. federal income tax consequences particular to each series of debt securities will be described in the prospectus supplement relating to the securities of that series. Such prospectus supplement may or may not modify the general terms found in this prospectus and will be filed with the SEC. Thus, the statements in this section may not apply to your securities. For a complete description of the terms of a particular series of debt securities, you should read this prospectus, any amendments to the registration statement of which this prospectus is a part, the prospectus supplement relating to that particular series, and the provisions of the applicable indenture, as supplemented, pursuant to which the particular series of debt securities is issued.

General

In this prospectus, “debt securities” refers to both our senior debt securities and our subordinated debt securities. We may issue an unlimited aggregate principal amount of senior debt securities pursuant to the indenture, dated as of March 15, 2012 (the “Senior Indenture”), among CIT and Wilmington Trust, National Association, as trustee (the “Trustee”), and Deutsche Bank Trust Company Americas, as paying agent, security registrar, and authenticating agent. The Senior Indenture may be supplemented from time to time. Unless otherwise specified in the prospectus supplement relating to the securities of any given series, the senior debt securities will not be secured by any property or assets of CIT. Thus, by owning a senior debt security, you are one of our unsecured creditors.

We may issue an unlimited amount of subordinated debt securities from time to time pursuant to a subordinated debt indenture (the “Subordinated Indenture”), a form of which is filed as an exhibit to the registration statement of which this prospectus is a part. We will enter into the Subordinated Indenture with the Trustee, or another subordinated trustee named in a prospectus supplement, prior to issuing any subordinated debt securities pursuant to the registration statement of which this prospectus is a part. The Subordinated Indenture is subject to any amendments or supplements that we may enter into with the Trustee. Unless otherwise specified in the prospectus supplement relating to the securities of any given series, the subordinated debt securities will not be secured by any property or assets of CIT. Thus, by owning a subordinated debt security, you are one of our unsecured subordinated creditors.

The Senior Indenture and the Subordinated Indenture (each, an “Indenture” and together, the “Indentures”) are substantially identical, except for the covenants described below under “—Certain Covenants Applicable to Our Senior Debt Securities”, which are included only in the Senior Indenture, the provisions relating to subordination described below under “—Subordination”, which are included only in the Subordinated Indenture, the provisions relating to amendments and supplements to each Indenture described below under “—Amendment, Supplement, and Waiver” and the events of default applicable to each Indenture described below under “—Events of Default; Acceleration of Payment; Limitation on Suits”. We urge you to read the Indentures, including any supplements, in their entirety because the applicable Indenture, and not this description, will define your rights as a beneficial holder of debt securities.

We are a Holding Company

We conduct a substantial portion of our operations primarily through our subsidiaries, and our subsidiaries hold a substantial portion of our assets. Accordingly, our cash flow and our ability to meet our obligations under the debt securities will be largely dependent on the cash flow and earnings of our subsidiaries and the distribution or other payment of these cash flows and earnings to us in the form of dividends, loans, or advances and

Table of Contents

repayment to us of loans and advances made to our subsidiaries by us. Our subsidiaries are separate and distinct legal entities and have no obligation to pay the amounts that will be due on our debt securities or to make any funds available for payment of amounts that will be due on our debt securities. Because we are a holding company, our obligations under our debt securities will be effectively subordinated to all existing and future liabilities of our subsidiaries.

Therefore, our rights, and the rights of our creditors, including the rights of the holders of the debt securities, to participate in any distribution of assets of any of our subsidiaries, if such subsidiary were to be liquidated or reorganized, are subject to the prior claims of such subsidiary's creditors. To the extent that we may be a creditor with recognized claims against our subsidiaries, our claims will still be effectively subordinated to any security interest in, or mortgages or other liens on, the assets of the subsidiary that are senior to us.

Debt Securities

The following summary of the material provisions of the Indentures are qualified in their entirety by the provisions of the applicable Indenture, including definitions of certain terms used in the Indentures. Additional or different provisions that are applicable to a particular series of debt securities will, if material, be described in a prospectus supplement relating to the offering of debt securities of that series.

Senior debt securities will rank equally in right of payment with our other senior indebtedness and ahead in right of payment of our subordinated debt securities. Any of our secured indebtedness will rank ahead in liquidation of the senior debt securities to the extent of the value of the assets securing such indebtedness.

Issuance in Series

We may issue debt securities in one or more series with the same or various maturities, at par or a premium, or with original issue discount. The prospectus supplement relating to any series of debt securities being offered will include specific terms relating to the offering. These terms will include, among other terms, some or all of the following, as applicable:

- if other than minimum denominations of \$2,000 and any integral multiple of \$1,000 in excess thereof, the denominations in which any debt securities to be issued in registered form will be issuable and, if other than a denomination of \$5,000, the denominations in which any debt securities to be issued in bearer form will be issuable;
- provisions specifying whether the debt securities will be convertible into other securities of CIT and/or exchangeable for securities of CIT or other issuers and, if so, the terms and conditions upon which such debt securities will be so convertible or exchangeable;
- if other than the principal amount, the percentage of the principal amount (or the method by which such percentage will be determined) of such debt securities that will be payable upon declaration of acceleration of the maturity thereof;
- if other than U.S. dollars, the currency of payment, including composite currencies, of the principal of, and any premium or interest on any of such debt securities;
- provisions specifying whether the principal of, and any premium or interest on such debt securities will be payable, at the election of CIT or a holder of debt securities, in a currency other than that in which such debt securities are stated to be payable and the date or dates on which, the period or periods within which, and the other terms and conditions upon which, such election may be made;

- any other terms of such debt securities and any other deletions from or modifications or additions to the applicable Indenture.

The prospectus supplement relating to debt securities being offered pursuant to this prospectus will be attached to the front of this prospectus.

We may from time to time, without the consent of the existing holders of the debt securities, create and issue additional debt securities of any series having the same terms and conditions as the previously issued debt securities of such series in all respects, except for the issue date, and in some cases the issue price and the first interest payment date, either of which may differ from the respective terms of the previously issued debt securities of that series; *provided* that any additional debt securities will only have the same CUSIP number as the original securities if they are fungible with the original securities for U.S. federal income tax purposes.

Subordination

The payment of the principal of, premium (if any), and interest on subordinated debt securities will be expressly subordinated, to the extent and in the manner set forth in the Subordinated Indenture and any amendments or supplements that we may enter into with the Trustee, in right of payment and upon liquidation to the prior payment in full of all of our senior indebtedness, including all senior debt securities we have issued and will issue under the Senior Indenture.

The term “senior indebtedness” means the principal, premium (if any), interest (including interest accruing on or after the filing of any petition in bankruptcy or for reorganization relating to CIT), fees, charges, expenses, reimbursement and indemnification obligations, and all other amounts payable under or in respect of any of the following, whether incurred prior to, on, or after the date of the offering of a series of subordinated debt securities:

- all obligations (other than obligations pursuant to the subordinated debt securities of any series and obligations pursuant to the Subordinated Indenture with respect thereto) for money borrowed;
- all obligations evidenced by securities, notes, debentures, bonds, or other similar instruments (other than any series of subordinated debt securities), including obligations incurred in connection with the acquisition of property, assets, or businesses;
- all capital lease obligations;
- all obligations arising from off-balance sheet guarantees and direct credit substitutes, including obligations in respect of any letters of credit, banker’s acceptance, security purchase facilities, and similar credit transactions;
- all obligations issued or assumed as the deferred purchase price of property or services, including all obligations under master lease transactions pursuant to which we or any of our subsidiaries have agreed to be treated as owner of the subject property for U.S. federal income tax purposes;

Table of Contents

- all obligations associated with derivative products including but not limited to securities contracts, foreign currency exchange contracts, swap agreements (including interest rate and foreign exchange rate swap agreements), cap agreements, floor agreements, collar agreements, interest rate agreements, foreign exchange rate agreements, options, commodity futures contracts, commodity option contracts, and similar financial instruments; and
- all obligations of the type referred to in the preceding bullet points of another person the payment of which, in either case, we have assumed or guaranteed or for which we are responsible or liable, directly or indirectly, jointly or severally, as obligor, guarantor, or otherwise;

provided that “senior indebtedness” shall not include (i) all Capital Stock of CIT, (ii) all obligations to trade creditors created or assumed by CIT in the ordinary course of business, (iii) any obligation of CIT to any Subsidiary of CIT or to any Person with respect to which CIT is a Subsidiary and (iv) all indebtedness that (x) expressly states that it is junior to or ranks equally in right of payment with the subordinated debt securities or (y) is identified as junior to, or equal in right of payment with, the subordinated debt securities in any board resolution establishing such series of subordinated debt securities or in any supplemental indenture.

Senior indebtedness will continue to be senior indebtedness and entitled to the benefits of the subordination provisions of the Subordinated Indenture irrespective of any amendment, modification, or waiver of any term of the senior indebtedness or extension or renewal of the senior indebtedness.

The Subordinated Indenture provides that, unless all principal of and any premium or interest on all senior indebtedness has been paid in full, no payment or other distribution may be made in respect of any subordinated debt securities in the following circumstances:

- in the event of (i) any insolvency, bankruptcy, receivership, liquidation, reorganization or other similar case or proceeding pursuant to any Bankruptcy Law, or any proceeding in connection therewith, relative to the Company or to its assets, (ii) any liquidation, dissolution or other winding up of the Company, whether voluntary or involuntary and whether or not involving insolvency or bankruptcy, or (iii) any assignment for the benefit of creditors or any other marshalling of assets or liabilities of the Company (any “Bankruptcy Proceeding”); or
- (i) either (a) in the event and during the continuation of any default in the payment of principal of, or premium (if any) or interest on any senior indebtedness beyond any applicable grace period or (b) in the event that any event of default with respect to any senior indebtedness has occurred and is continuing, permitting the direct holders of that senior indebtedness (or a trustee or other authorized party on their behalf) to accelerate the maturity of that senior indebtedness, whether or not the maturity is in fact accelerated (unless, in the case of either (i)(a) or (i)(b), the default or event of default described therein has been cured or waived or ceased to exist and any related acceleration has been rescinded), and (ii) either (a) any default or event of default described in clause (i)(a) or (i)(b) is subject of a judicial proceeding or (b) we or the Trustee under the Subordinated Indenture receives notice of such default or event of default from a Person specified in the Subordinated Indenture.

In such events, all holders of senior indebtedness will be entitled to receive payment in full of all amounts due before holders of subordinated debt securities will be entitled to receive any payment of principal, interest, or other amounts due on their subordinated debt securities. We will make the payments to the holders of senior indebtedness according to priorities existing among those holders until we have paid all senior indebtedness, including accrued interest, in full.

If a deposit is made with the Trustee under the Subordinated Indenture in compliance with the provisions described under “—Legal Defeasance and Covenant Defeasance” or “—Satisfaction and Discharge”, and at the time of such deposit and during the 90 days following such deposit no Bankruptcy Proceeding shall occur and no default or event of default described in clause (i)(a) or (i)(b) in the second preceding paragraph shall occur, the subordination provisions described herein shall not apply to any funds so deposited, and such funds shall not be subject to any rights of holders of senior indebtedness.

Table of Contents

If any Bankruptcy Proceeding shall occur, after we have paid in full all amounts owed on senior indebtedness, the holders of subordinated debt securities together with the holders of any of our other indebtedness ranking pari passu in right of payment of the subordinated debt securities will be entitled to receive from our remaining assets any principal of, or premium or interest on the subordinated debt securities, and such other obligations due at that time before we make any payment or other distribution on account of any of our Capital Stock or obligations ranking junior to the subordinated debt securities.

If we make a payment or distribution to holders of the subordinated debt securities before we have paid all the senior indebtedness in full, then such holders of the subordinated debt securities will have to pay or transfer the payments or distributions to the trustee in bankruptcy, receiver, liquidating trustee, or other person distributing our assets for payment of the senior indebtedness.

Because of the subordination provisions, if we become insolvent, holders of senior indebtedness may receive more, ratably, and holders of the subordinated debt securities having a claim pursuant to such securities may receive less, ratably, than our other creditors. This type of subordination will not prevent an Event of Default from occurring under the Subordinated Indenture in connection with the subordinated debt securities.

The Subordinated Indenture places no limitation on the amount of senior or subordinated indebtedness that we may incur. We expect from time to time to incur additional indebtedness and other obligations constituting senior or subordinated indebtedness.

Certain Covenants Applicable to Our Debt Securities

Consolidation, Merger, or Sale

CIT will not, directly or indirectly: (1) consolidate or merge with or into another Person (whether or not CIT is the surviving corporation); or (2) sell, assign, transfer, convey, lease, or otherwise dispose of all or substantially all of the properties or assets of CIT and its Subsidiaries, taken as a whole, in one or more related transactions, to another Person, unless:

- either: (a) CIT is the surviving corporation; or (b) the Person formed by or surviving any such consolidation or merger (if other than CIT) or to which such sale, assignment, transfer, conveyance, or other disposition has been made is a Person organized or existing under the laws of the United States, any state of the United States or the District of Columbia;
- the Person formed by or surviving any such consolidation or merger (if other than CIT) or the Person to which such sale, assignment, transfer, conveyance, or other applicable disposition has been made assumes by contract or operation of law all the obligations of CIT under the debt securities and the Indentures pursuant to agreements reasonably satisfactory to the Trustee; and
- immediately after, and upon giving effect to, such transaction, no Default or Event of Default exists.

This “Consolidation, Merger, or Sale” covenant will not apply to:

- a merger of CIT with an Affiliate solely for the purpose of reincorporating CIT in another jurisdiction; or
- any consolidation or merger, or any sale, assignment, transfer, conveyance, lease, or other disposition of assets between or among CIT and its Subsidiaries.

Certain Covenants Applicable to Our Senior Debt Securities

Unless otherwise specified in the applicable prospectus supplement, the following covenants will apply with respect to each series of senior debt securities issued under the Senior Indenture.

Table of Contents

Negative Pledge Applicable to Senior Debt Securities

The Senior Indenture does not limit the amount of other securities that CIT or its subsidiaries may issue. However, the Senior Indenture contains a “Negative Pledge” that provides that after the date of the execution and delivery of the supplemental indenture and so long as any senior debt securities shall be outstanding, CIT will not pledge or otherwise subject to any lien (any such pledge or lien being hereinafter referred to as a “Lien”) any of its property or assets to secure Indebtedness for money borrowed, incurred, issued, assumed, or guaranteed by CIT without thereby expressly securing the due and punctual payment of the principal of and interest on the senior debt securities equally and ratably with any and all other Indebtedness for borrowed money secured by such Lien, so long as any such other Indebtedness shall be so secured; *provided, however*, that this restriction shall not prohibit or otherwise restrict:

- Liens existing on the Issue Date;
- CIT from creating, incurring, or suffering to exist upon any of its property or assets any Lien in favor of any of its Subsidiaries;
- CIT (i) from creating, incurring, or suffering to exist a purchase money Lien upon any such property, assets, Capital Stock, or Indebtedness acquired by CIT prior to, at the time of, or within one year after (1) in the case of physical property or assets, the later of the acquisition, completion of construction (including any improvements on existing property), or commencement of commercial operation of such property or (2) in the case of shares of Capital Stock, Indebtedness, or other property or assets, the acquisition of such shares of Capital Stock, Indebtedness, property, or assets, (ii) from acquiring property or assets subject to Liens existing thereon at the date of acquisition thereof, whether or not the Indebtedness secured by any such Lien is assumed or guaranteed by CIT, or (iii) from creating, incurring, or suffering to exist Liens upon any property of any Person, which Liens exist at the time any such Person is merged with or into or consolidated with CIT (or becomes a Subsidiary of CIT) or which Liens exist at the time of a sale or transfer of the properties of any such Person as an entirety or substantially as an entirety to CIT;
- CIT from creating, incurring, or suffering to exist upon any of its property or assets Liens in favor of the United States or any state thereof or the District of Columbia, or any agency, department, or other instrumentality thereof, to secure, progress, advance, or make other payments pursuant to any contract or provision of any statute (including maintaining self-insurance or participating in any fund in connection with worker’s compensation, disability benefits, unemployment insurance, old age pensions, or other types of social benefits, or joining in any other provisions or benefits available to companies participating in any such arrangements);
- CIT from creating, incurring, or suffering to exist upon any of its property or assets Liens securing its obligations under letters of credit, Rate Management Transactions, bids, tenders, sales contracts, purchase agreements, repurchase agreements, reverse repurchase agreements, bankers’ acceptances, leases, surety and performance bonds, and other similar obligations, in each case, incurred in the ordinary course of business;
- CIT from creating, incurring, or suffering to exist Liens upon any real property acquired or constructed by CIT primarily for use in the conduct of its business;
- CIT from entering into any arrangement with any Person providing for the leasing by CIT of any property or assets, which property or assets have been or will be sold or transferred by CIT to such Person with the intention that such property or assets will be leased back to CIT, if the obligations in respect of such lease would not be included as liabilities on its consolidated balance sheet;
- CIT from creating, incurring, or suffering to exist upon any of its property or assets Liens to secure non-recourse debt in connection with its engaging in any leveraged or single-investor or other lease transactions, whether (in the case of Liens on or relating to leases or groups of leases or the particular properties subject thereto) such Liens are on the particular properties subject to any leases involved in

any of such transactions and/or the rental or other payments or rights under such leases or, in the case of any group of related or unrelated leases, on the properties subject to the leases comprising such group and/or on the rental or other payments or rights under such leases, or on any direct or indirect interest therein, and whether (in any case) (A) such Liens are created prior to, at the time of, or at any time after the entering into of such lease transactions and/or (B) such leases are in existence prior to, or are entered into by CIT at the time of or at any time after, the purchase or other acquisition by CIT of the properties subject to such leases;

- CIT from creating, incurring, or suffering to exist (A) other consensual Liens in the ordinary course of its business that secure Indebtedness that, in accordance with generally accepted accounting principles, would not be included in total liabilities as shown on its consolidated balance sheet, or (B) Liens created by CIT in connection with any transaction intended by CIT to be a sale of its property or assets, *provided* that such Liens are upon any or all of the property or assets intended to be sold, the income from such property or assets, and/or the proceeds of such property or assets;
- CIT from creating, incurring, or suffering to exist Liens on property or assets financed through tax-exempt municipal obligations, *provided* that such Liens are only on the property or assets so financed;
- any extension, renewal, refinancing, or replacement (or successive extensions, renewals, refinancings, or replacements), in whole or in part, of any of the foregoing; *provided, however*, that any such extension, renewal, refinancing, or replacement shall be limited to all or a part of the property or assets (or substitutions therefor) which secured the Lien so extended, renewed, refinanced, or replaced (plus improvements on such property); and
- CIT from creating, incurring, or suffering to exist any other Liens not otherwise permitted by any of the foregoing clauses above; *provided* that the maximum amount of Indebtedness secured by Liens in reliance on this clause shall not exceed, at the time of and after giving effect to the incurrence of any Indebtedness secured by a Lien in reliance on this clause, an amount equal to the greater of \$900 million or 10% of the excess of its consolidated total assets over its consolidated liabilities, as shown on its balance sheet for the most recent fiscal quarter for which financial statements are publicly available in accordance with generally accepted accounting principles at the date of measurement.

For the purposes of this covenant described under the caption “Negative Pledge,” any contract by which title is retained as security (whether by lease, purchase, title retention agreement, or otherwise) for the payment of a purchase price shall be deemed to be a purchase money Lien.

Nothing contained in this covenant described under the caption “Negative Pledge” or in the Senior Indenture shall prevent or be deemed to prohibit the creation, assumption, or guaranty by CIT of any Indebtedness not secured by a Lien or the issuance by CIT of any debentures, notes, or other evidences of Indebtedness not secured by a Lien, whether in the ordinary course of business or otherwise.

The entry by CIT into any contract, document, agreement, or instrument (which shall include bank credit facilities, Rate Management Transactions, and loan agreements), in the ordinary course of business or otherwise, which contract, document, agreement, or instrument may provide for or contain a right of set-off or other similar right between CIT and such other party to the contract, document, agreement, or instrument shall not result in, or be deemed to constitute, the creation or incurrence of a “Lien” as such term is used in the Senior Indenture.

Events of Default; Acceleration of Payment; Limitation on Suits

Each of the following is an “Event of Default” with respect to each series of our senior debt securities under the Senior Indenture, unless otherwise stated in a prospectus supplement:

- default for 30 days in the payment when due of interest on the debt securities of such series;

Table of Contents

- default in the payment when due (at maturity, upon redemption or otherwise) of the principal of, or premium, if any, on, the debt securities of such series;
- failure for three business days by CIT to comply with the provisions described under the caption “—Certain Covenants Applicable to Our Debt Securities—Consolidation, Merger, or Sale”;
- failure by CIT for 60 days after written notice to CIT by the Trustee or the holders of at least 25% in aggregate principal amount of the debt securities of such series outstanding voting as a single class to comply with any of the other agreements in the Senior Indenture;
- default under any mortgage, indenture, or instrument under which there may be issued or by which there may be secured or evidenced any Indebtedness for money borrowed by CIT (or the payment of which is guaranteed by CIT), whether such Indebtedness or guarantee now exists, or is created after the Issue Date, if that default:
 - is a Payment Default; or
 - results in the acceleration of such Indebtedness prior to its express maturity,

and, in each case, the principal amount of any such Indebtedness, together with the principal amount of any other such Indebtedness under which there has been a Payment Default or the maturity of which has been so accelerated, aggregates \$250 million or more;

- failure by CIT to pay final and non-appealable judgments entered by a court or courts of competent jurisdiction aggregating in excess of \$250 million (net of any amounts covered by insurance), which judgments are not paid, discharged, or stayed for a period of 60 days; and
- (x) a court of competent jurisdiction enters an order or decree under any applicable Bankruptcy Law that: (A) is for relief against CIT in an involuntary case; (B) appoints a Bankruptcy Custodian of CIT or for all or substantially all of the property of CIT; or (C) orders the liquidation of CIT; and the order or decree remains unstayed and in effect for 60 consecutive days; or (y) the commencement by CIT of a voluntary proceeding under any applicable bankruptcy, insolvency, reorganization (other than a reorganization under a foreign law that does not relate to insolvency), or other similar law or of a voluntary proceeding seeking to be adjudicated insolvent or the consent by CIT to the entry of a decree or order for relief in an involuntary proceeding under any applicable bankruptcy, insolvency, reorganization, or other similar law or to the commencement of any insolvency proceedings against it, or the filing by CIT of a petition or answer or consent seeking reorganization, arrangement, adjustment, or composition of CIT under any such applicable law, or the consent by CIT to the filing of such petition or to the appointment of or taking possession by a custodian, receiver, liquidator, assignee, trustee, or similar official of CIT or any substantial part of the property of CIT or the making by CIT of an assignment for the benefit of creditors, or the taking of corporate action by CIT in furtherance of any such action or the admitting in writing by CIT of its or their inability to pay its debts generally as they become due.

In the case of an Event of Default under the Senior Indenture relating to bankruptcy proceedings, all outstanding senior debt securities will become due and payable immediately without further action or notice. If any other Event of Default occurs and is continuing, the Trustee or the holders of at least 25% in aggregate principal amount of the then outstanding senior debt securities of any series, by notice to CIT, may declare all the debt securities of such series to be due and payable immediately.

Each of the following is an “Event of Default” with respect to each series of our subordinated debt securities under the Subordinated Indenture, unless otherwise stated in a prospectus supplement:

- a court of competent jurisdiction enters an order or decree under any applicable Bankruptcy Law that: (A) is for relief against CIT in an involuntary case; (B) appoints a Bankruptcy Custodian of CIT or for all or substantially all of the property of CIT; or (C) orders the liquidation of CIT; and the order or decree remains unstayed and in effect for 60 consecutive days; and

Table of Contents

- the commencement by CIT of a voluntary proceeding under any applicable bankruptcy, insolvency, reorganization (other than a reorganization under a foreign law that does not relate to insolvency), or other similar law or of a voluntary proceeding seeking to be adjudicated insolvent or the consent by CIT to the entry of a decree or order for relief in an involuntary proceeding under any applicable bankruptcy, insolvency, reorganization, or other similar law or to the commencement of any insolvency proceedings against it, or the filing by CIT of a petition or answer or consent seeking reorganization, arrangement, adjustment, or composition of CIT under any such applicable law, or the consent by CIT to the filing of such petition or to the appointment of or taking possession by a custodian, receiver, liquidator, assignee, trustee, or similar official of CIT or any substantial part of the property of CIT or the making by CIT of an assignment for the benefit of creditors, or the taking of corporate action by CIT in furtherance of any such action or the admitting in writing by CIT of its or their inability to pay its debts generally as they become due.

In the case of an Event of Default under the Subordinated Indenture, all outstanding senior debt securities will become due and payable immediately without further action or notice.

There is no right of acceleration in the case of a default in the payment of principal of, premium (if any), or interest on our subordinated debt securities or in our nonperformance or breach of any other covenant or warranty under the subordinated debt securities or the Subordinated Indenture. If, under the Subordinated Indenture, a Default occurs that is not also an Event of Default, neither the Trustee nor the holders of our debt securities may act to accelerate the maturity of the subordinated debt securities of such series. But if a Default under the Subordinated Indenture occurs, the Trustee may proceed to enforce any covenant and other rights of the holders of the debt securities of such series. Furthermore, if the Default relates to our failure to make any payment of interest due and payable, and such Default continues for 30 days or such Default is made in the payment of the principal or any premium at its maturity, then the Trustee may demand payment of the amounts then due and payable and may proceed to prosecute any failure on our part to make such payments.

If you are the holder of a subordinated debt security, all the remedies available upon the occurrence of an Event of Default under the Subordinated Indenture will be subject to the restrictions on the subordinated debt securities described below under “—Subordination”.

Subject to certain limitations, holders of a majority in aggregate principal amount of the then outstanding debt securities of any series may direct the Trustee in its exercise of any trust or power with respect to such series. The Trustee may withhold from holders of the debt securities notice of any continuing Default or Event of Default so long as the board of directors, the executive committee, or a trust committee of directors and/or Responsible Officers (as defined in the applicable Indenture) of the Trustee in good faith determine that the withholding of such notice is in the best interest of the holders of debt securities of such series, except a Default or Event of Default relating to the payment of principal, interest, or premium, if any.

Subject to the provisions of the applicable Indenture relating to the duties of the Trustee, in case an Event of Default occurs and is continuing, the Trustee will be under no obligation to exercise any of the rights or powers under the applicable Indenture at the request or direction of any holders of debt securities unless such holders have offered to the Trustee reasonable indemnity or security against any loss, liability, or expense. Except to enforce the right to receive payment of principal, premium, if any, or interest, when due, no holder of a debt security of such series may pursue any remedy with respect to the applicable Indenture or such debt securities unless:

- such holder has previously given the Trustee notice that an Event of Default is continuing;
- holders of at least 25% in aggregate principal amount of the then outstanding debt securities of such series have requested the Trustee to pursue the remedy;
- such holders of debt securities have offered the Trustee reasonable security or indemnity against any loss, liability, or expense;

Table of Contents

- the Trustee has not complied with such request within 60 days after the receipt of the request and the offer of security or indemnity; and
- holders of a majority in aggregate principal amount of the then outstanding debt securities of such series have not given the Trustee a direction inconsistent with such request within such 60-day period.

The holders of a majority in aggregate principal amount of the then outstanding debt securities of any series by notice to the Trustee may, on behalf of the holders of all of the debt securities of such series, rescind an acceleration or waive any existing Default or Event of Default and its consequences under the applicable Indenture except a continuing Default or Event of Default in the payment of interest or premium, if any, on, or the principal of, the debt securities of such series.

CIT is required to deliver to the Trustee annually a statement regarding compliance with the Indentures. Within 30 days after becoming aware of any Default or Event of Default, CIT is required to deliver to the Trustee a statement specifying such Default or Event of Default.

Amendment, Supplement, and Waiver

Except as provided in the succeeding paragraphs, the debt securities of any series and the applicable Indenture as it relates to such series may be amended or supplemented with the consent of the holders of at least a majority in aggregate principal amount of the debt securities of such series then outstanding (including, without limitation, consents obtained in connection with a purchase of, or tender offer or exchange offer for, debt securities), and any existing Default or Event of Default or compliance with any provision of the applicable Indenture or the instruments evidencing debt securities with respect to any series may be waived with the consent of the holders of a majority in aggregate principal amount of the then outstanding debt securities of such series (including, without limitation, consents obtained in connection with a purchase of, or tender offer or exchange offer for, debt securities).

Without the consent of each holder of debt securities affected, an amendment, supplement, or waiver may not (with respect to any debt securities held by a non-consenting holder):

- reduce the principal amount of debt securities whose holders must consent to an amendment, supplement, or waiver;
- reduce the principal of or change the fixed maturity of any debt securities or reduce the redemption price of any debt securities;
- reduce the rate of or change the time for payment of interest, including default interest, on any debt securities;
- waive a Default or Event of Default in the payment of principal of, or interest, or premium, if any, on, the debt securities (except, to the extent applicable, a rescission of acceleration of the debt securities by the holders of at least a majority in aggregate principal amount of the then outstanding debt securities of such series and a waiver of the Payment Default that resulted from such acceleration);
- make any debt securities payable in money other than U.S. dollars;
- make any change in the provisions of the applicable Indenture relating to waivers of past Defaults (except to increase the percentage of holders required to consent to such waiver or to provide that certain other provisions of the applicable indenture cannot be modified or waived without the consent of the holder of each debt security affected thereby) or the rights of holders of debt securities to receive payments of principal of, or interest or premium, if any, on, the debt securities;
- waive a redemption payment with respect to any debt securities; or
- make any change in the preceding amendment and waiver provisions.

Table of Contents

Notwithstanding the preceding, without the consent of any holder of debt securities, CIT and the Trustee may amend or supplement the Indentures or the debt securities:

- to cure any ambiguity, defect, or inconsistency;
- to provide for uncertificated debt securities in addition to or in place of certificated debt securities;
- to provide for the assumption of CIT's obligations to holders of debt securities in the case of a merger or consolidation or sale of all or substantially all of CIT's assets;
- to make any change that would provide any additional rights or benefits to the holders of such debt securities, increase the interest rate applicable to any series of the debt securities, or that does not adversely affect the legal rights under the applicable Indenture of any such holder;
- to comply with requirements of the SEC in order to effect or maintain the qualification of the applicable Indenture under the Trust Indenture Act of 1939, as amended (the "Trust Indenture Act");
- to conform the text of the applicable Indenture or the debt securities to any provision of this "Description of Debt Securities" in a prospectus supplement applicable to any series of debt securities; and
- to provide for the issuance of additional debt securities in accordance with the limitations set forth in the applicable Indenture as of the date of the applicable Indenture.

The consent of the holders of debt securities is not necessary under the Indentures to approve the particular form of any proposed amendment or waiver. It is sufficient if such consent approves the substance of the proposed amendment or waiver.

Legal Defeasance and Covenant Defeasance

CIT may, at its option and at any time, elect to have all of its obligations discharged with respect to the outstanding debt securities of any series ("Legal Defeasance") except for:

- the rights of holders of outstanding debt securities of such series to receive payments in respect of the principal of, or interest and premium, if any, on, such debt securities when such payments are due from the trust referred to below;
- CIT's obligations with respect to the debt securities of such series concerning issuing temporary certificates for the debt securities, registration of debt securities, mutilated, destroyed, lost, or stolen debt securities, and the maintenance of an office or agency for payment and money for security payments held in trust;
- the rights, powers, trusts, duties, and immunities of the Trustee, and CIT's obligations in connection therewith; and
- the Legal Defeasance and Covenant Defeasance provisions of the Indentures.

In addition, CIT may, at its option and at any time, elect to have its obligations released with respect to certain covenants that are described in the Indentures with respect to the debt securities of any series ("Covenant Defeasance") and thereafter any omission to comply with those covenants will not constitute a Default or Event of Default with respect to the debt securities of such series. In the event Covenant Defeasance occurs, certain events (not including non-payment, bankruptcy, receivership, rehabilitation, and insolvency events) described under "—Events of Default; Acceleration of Payment; Limitation on Suits" will no longer constitute an Event of Default with respect to the debt securities of such series.

In order to exercise either Legal Defeasance or Covenant Defeasance with respect to the debt securities of any series:

- CIT must irrevocably deposit with the Trustee, in trust, for the benefit of the holders of the debt securities of such series, Cash in U.S. dollars, non-callable government obligations, or a combination of

Table of Contents

Cash in U.S. dollars and non-callable government obligations, in amounts as will be sufficient, in the opinion of a nationally recognized investment bank, appraisal firm, or firm of independent public accountants, to pay the principal of, or interest and premium, if any, on, the then outstanding debt securities of such series on the stated date for payment thereof or on the applicable redemption date, as the case may be, and CIT must specify whether such debt securities are being defeased to such stated date for payment or to a particular redemption date;

- in the case of Legal Defeasance, CIT must deliver to the Trustee an opinion of counsel reasonably acceptable to the Trustee confirming that (a) CIT has received from, or there has been published by, the Internal Revenue Service a ruling or (b) since the Issue Date, there has been a change in the applicable federal income tax law, in either case to the effect that, and based thereon such opinion of counsel will confirm that, the holders of the outstanding debt securities of such series will not recognize income, gain, or loss for federal income tax purposes as a result of such Legal Defeasance and will be subject to federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such Legal Defeasance had not occurred;
- in the case of Covenant Defeasance, CIT must deliver to the Trustee an opinion of counsel reasonably acceptable to the Trustee confirming that the holders of the then outstanding debt securities of such series will not recognize income, gain, or loss for federal income tax purposes as a result of such Covenant Defeasance and will be subject to federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such Covenant Defeasance had not occurred;
- no Default or Event of Default has occurred and is continuing on the date of such deposit (other than a Default or Event of Default resulting from the borrowing of funds to be applied to such deposit and the grant of any Lien securing such borrowing);
- such Legal Defeasance or Covenant Defeasance will not result in a breach or violation of, or constitute a default under, any material agreement or instrument (other than the applicable Indenture) to which CIT is a party or by which CIT is bound;
- CIT must deliver to the Trustee an officers' certificate stating that the deposit was not made by CIT with the intent of preferring the holders of the debt securities of such series over the other creditors of CIT with the intent of defeating, hindering, delaying, or defrauding any creditors of CIT or others; and
- CIT must deliver to the Trustee an officers' certificate and an opinion of counsel, each stating that all conditions precedent relating to the Legal Defeasance or the Covenant Defeasance have been complied with.

Satisfaction and Discharge

The Indentures will be discharged and will cease to be of further effect as to all debt securities of any series issued thereunder, when:

(1) either:

(a) all debt securities of such series that have been authenticated, except lost, stolen, or destroyed debt securities that have been replaced or paid and debt securities for whose payment money has been deposited in trust and thereafter repaid to us, have been delivered to the Trustee for cancellation; or

(b) all debt securities of such series that have not been delivered to the Trustee for cancellation have become due and payable by reason of the mailing of a notice of redemption or otherwise or will become due and payable within one year and CIT has irrevocably deposited or caused to be deposited with the Trustee as trust funds in trust solely for the benefit of the holders of the debt securities of such series, Cash in U.S. dollars, non-callable government obligations, or a combination of Cash in U.S. dollars and non-callable government obligations, in amounts as will be sufficient, without consideration of any reinvestment of

interest, to pay and discharge the entire Indebtedness on the debt securities of such series not delivered to the Trustee for cancellation for principal, premium, if any, and accrued interest, to the date of maturity or redemption;

(2) with respect to such series of debt securities, no Default or Event of Default has occurred and is continuing on the date of the deposit (other than a Default or Event of Default resulting from the borrowing of funds to be applied to such deposit and the grant of any Lien securing such borrowing) and the deposit will not result in a breach or violation of, or constitute a default under, any other material agreement or instrument to which CIT is a party or by which CIT is bound;

(3) CIT paid or caused to be paid all sums payable by it under the applicable Indenture with respect to the debt securities of such series; and

(4) CIT has delivered irrevocable instructions to the Trustee under the Indenture to apply the deposited money toward the payment of the debt securities of such series at maturity or on the redemption date, as the case may be.

In addition, CIT must deliver an officers' certificate and an opinion of counsel to the Trustee stating that all conditions precedent to satisfaction and discharge have been satisfied.

Concerning the Trustee

Wilmington Trust, National Association will act as Trustee under the Senior Indenture and the Subordinated Indenture, as permitted by the terms thereof, unless the Company elects to appoint a different trustee with respect to a relevant series of debt securities as described in the applicable prospectus supplement. At all times, the Trustee must be organized and doing business under the laws of the United States, any state thereof or the District of Columbia, and must comply with all applicable requirements under the Trust Indenture Act.

The Trustee may resign at any time by giving us written notice or may be removed as Trustee with respect to any series of outstanding debt securities:

- by act of the holders of a majority in principal amount of such series of outstanding debt securities; or

If the Trustee resigns, is removed or becomes incapable of acting, or if a vacancy occurs in the office of the Trustee for any cause, CIT, by or pursuant to a board resolution, will promptly appoint a successor Trustee with respect to the debt securities of such series. CIT will give written notice to holders of the relevant series of debt securities, of each resignation and each removal of the Trustee with respect to the debt securities of such series and each appointment of a successor Trustee. Upon the appointment of any successor Trustee, CIT, the retiring Trustee, and such successor Trustee, will execute and deliver a supplemental indenture in which each successor Trustee will accept such appointment and which will contain such provisions as necessary or desirable to transfer to such successor Trustee all the rights, powers, trusts, and duties of the retiring Trustee with respect to the relevant series of debt securities.

The Trustee may be contacted at the following address: 15950 N. Dallas Parkway, Suite 550, Dallas, TX 75248.

Authorized Capital Stock

Our authorized capital stock consists of 700,000,000 shares, including: (i) 600,000,000 shares of our common stock, \$0.01 par value per share, and (ii) 100,000,000 shares of preferred stock, \$0.01 par value per share. The number of authorized shares of capital stock may be increased or decreased (but not below the number of shares then outstanding) by the affirmative vote of a majority of stockholders entitled to vote voting together as a single class. As of October 31, 2017, we had outstanding 131,258,836 shares of our common stock and 325,000 shares of preferred stock outstanding.

Common Stock

Holders of our common stock are entitled to one vote per share on all matters submitted to a vote of stockholders, including the election of directors. Our common stockholders are not entitled to cumulative voting in the election of directors; consequently, the holders of a majority of the shares of common stock outstanding have the power to elect all of the directors then standing for election. Except as otherwise required by law or provided in any resolution adopted by our Board of Directors with respect to any series of preferred stock, the holders of our common stock will possess all voting power. Generally, all matters to be voted on by the stockholders must be approved by a majority, or, in the case of the election of directors, by a plurality, of the votes cast, subject to state law and any voting rights granted to any of the holders of preferred stock. Notwithstanding the foregoing, approval of the following two matters require the vote of holders of two-thirds of our outstanding capital stock entitled to vote in the election of directors: (i) amending, repealing, or adopting of by-laws by the stockholders and (ii) amending, repealing, or adopting any provision that is inconsistent with certain provisions of our certificate of incorporation. The holders of our common stock do not have any preemptive rights. There are no subscription, redemption, conversion, or sinking fund provisions with respect to our common stock.

Subject to preferences that may be applicable to any outstanding shares of preferred stock that our Board of Directors may create, from time to time, holders of our common stock are entitled to receive ratably such dividends, if any, as may be declared by our Board of Directors out of funds legally available therefor if our Board of Directors, in its discretion, determines to issue dividends and only then at the times and in the amounts that our Board of Directors may determine. Upon the liquidation, dissolution, or winding-up of our Company, the holders of our common stock are entitled to receive their ratable share of the net assets of our Company available after payment of all debts and other liabilities, subject to the prior preferential rights and payment of liquidation preferences, if any, of any outstanding shares of preferred stock. The rights, preferences, and privileges of the holders of our common stock are subject to, and may be adversely affected by, the rights of the holders of shares of any series of preferred stock that we may designate in the future.

Preferred Stock

Our Board of Directors has the authority, subject to the limitations imposed by Delaware law, without any further vote or action by our stockholders, to issue preferred stock in one or more series and to fix the designations, powers, preferences, limitations, and rights of the shares of each series, including:

- the number of shares constituting each series;
- the voting powers;
- terms of redemption provisions, including any restrictions on redemption while dividends are in arrears;
- terms of, and conditions upon, dividends payable to holders;
- rights and preferences upon liquidation, dissolution, or winding-up; and
- conversion and exchange rights.

Satisfaction of any dividend preferences of outstanding shares of preferred stock would reduce the amount of funds available for the payment of dividends on shares of our common stock. Holders of shares of preferred stock may be entitled to receive a preference payment in the event of our liquidation, dissolution, or winding-up before any payment is made to the holders of shares of our common stock.

Our Board of Directors may authorize the issuance of preferred stock with voting or conversion rights that could adversely affect the voting power or other rights of the holders of our common stock. The issuance of preferred stock, while providing flexibility in connection with possible acquisitions and other corporate purposes, could, among other things, have the effect of delaying, deferring, or preventing a change in control of our company and may adversely affect the market price of our common stock and the voting and other rights of the holders of our common stock.

Series A Preferred Stock

On June 6, 2017, we filed a Certificate of Designation (the “Certificate”) with the Secretary of State of the State of Delaware, establishing the terms, rights, preferences, privileges, qualifications, restrictions, and limitations of a new series of preferred stock designated as the Fixed-to-Floating Rate Non-Cumulative Perpetual Preferred Stock, Series A (the “Series A Preferred Stock”).

The Series A Preferred Stock ranks (i) senior, as to dividends and upon liquidation, dissolution, and winding-up, to the common stock of CIT and to any other class or series of capital stock of CIT now or hereafter authorized, issued, or outstanding that, by its terms, does not expressly provide that such class or series ranks *pari passu* with the Series A Preferred Stock or senior to the Series A Preferred Stock as to dividends and upon liquidation, dissolution, and winding-up, as the case may be; (ii) on a parity, as to dividends and upon liquidation, dissolution, and winding-up, with any class or series of capital stock of CIT now or hereafter authorized, issued, or outstanding that, by its terms, expressly provides that such class or series ranks *pari passu* with the Series A Preferred Stock as to dividends and upon liquidation, dissolution, and winding-up, as the case may be; and (iii) junior, as to dividends and upon liquidation, dissolution, and winding-up, to any other class or series of capital stock of CIT now or hereafter authorized, issued, or outstanding that, by its terms, expressly provides that such class or series ranks senior to the Series A Preferred Stock as to dividends and upon liquidation, dissolution, and winding-up, as the case may be.

Under the terms of the Series A Preferred Stock, the ability of CIT to pay dividends on, make distributions with respect to, or to redeem, purchase, or acquire CIT’s common stock or any other stock ranking junior to or on a parity with the Series A Preferred Stock, is subject to restrictions in the event that CIT has not declared and either paid or set aside a sum sufficient for payment of full dividends on the Series A Preferred Stock for the most recently completed dividend period.

Table of Contents

Holders of the Series A Preferred Stock are entitled to receive only when, as, and if declared by our Board of Directors or a duly authorized committee of the Board, on each dividend payment date, out of assets legally available for payment of dividends, non-cumulative cash dividends based on the liquidation preference at a rate equal to (i) 5.800% per annum for each dividend period from the original issue date of the shares of Series A Preferred Stock to, but excluding, June 15, 2022 and (ii) a floating rate per annum equal to three-month LIBOR as determined on the related dividend determination date plus a spread of 3.972% per annum for each dividend period from and after June 15, 2022. If declared by the Board or a duly authorized committee of the Board, dividends will be payable on the Series A Preferred Stock semi-annually in arrears on June 15 and December 15 of each year, beginning on December 15, 2017 and ending on June 15, 2022 and, thereafter, quarterly in arrears on March 15, June 15, September 15, and December 15 of each year, beginning on September 15, 2022.

The Series A Preferred Stock has a liquidation preference of \$1,000.00 per share, plus any declared and unpaid dividends, without accumulation of any undeclared dividends. Liquidating distributions will be made on the Series A Preferred Stock only to the extent CIT's assets are available after satisfaction of all liabilities or obligations to creditors and subject to the rights of holders of any security ranking senior to the Series A Preferred Stock, and pro rata with any other shares of CIT's capital stock ranking on a parity with the Series A Preferred Stock as to such distributions. After payment of the full amount of the liquidating distribution, holders of the Series A Preferred Stock are not entitled to any further participation in any distribution of CIT's assets.

The Series A Preferred Stock has no stated maturity date, is not subject to any mandatory redemption, sinking fund, or other similar provisions, and will remain outstanding unless redeemed at CIT's option. CIT may redeem the Series A Preferred Stock at its option, at a redemption price equal to \$1,000.00 per share, plus any declared and unpaid dividends (without regard to any undeclared dividends), (i) in whole or in part, from time to time, on any dividend payment date on or after June 15, 2022, or (ii) in whole but not in part, within 90 days following the occurrence of a "regulatory capital treatment event" (as described in the Certificate). Any redemption of the Series A Preferred Stock is subject to prior approval of the Board of Governors of the Federal Reserve System or any successor appropriate federal banking agency. The Series A Preferred Stock has no preemptive or conversion rights.

The Series A Preferred Stock has no voting rights except with respect to (i) authorizing, increasing the authorized amount of, or issuing any capital stock ranking senior to the Series A Preferred Stock (or any securities convertible into or exchangeable for or evidencing the right to purchase any capital stock ranking senior to the Series A Preferred Stock), (ii) authorizing adverse changes in the terms of the Series A Preferred Stock, (iii) in the case of certain dividend nonpayments, electing directors, (iv) certain other fundamental corporate events, and (v) as otherwise required under applicable law.

Certain Anti-Takeover Provisions of Our Restated Certificate of Incorporation and Applicable Law

Certain provisions of our restated certificate of incorporation and Delaware law applicable to our business may discourage or make more difficult a takeover attempt that a stockholder might consider in his or her best interest. These provisions may also adversely affect prevailing market prices for our common stock. We believe that the benefits of increased protection give us the potential ability to negotiate with the proponent of an unsolicited proposal to acquire or restructure us and outweigh the disadvantage of discouraging those proposals because negotiation of the proposals could result in an improvement of their terms.

For example, our restated certificate of incorporation prohibits stockholders from taking action by written consent. Also, to the extent that our stockholders seek to amend our amended and restated by-laws, our restated certificate of incorporation requires the affirmative vote of not less than two-thirds of the outstanding shares entitled to vote on the matter.

Section 203 of the Delaware General Corporation Law

As a Delaware corporation, we are subject to Section 203 of the DGCL. In general, Section 203 prohibits a publicly held Delaware corporation from engaging in a “business combination” with an “interested stockholder” for a three-year period following the time that this stockholder becomes an interested stockholder, unless the business combination is approved in a prescribed manner. A “business combination” includes, among other things, a merger, asset or stock sale, or other transaction resulting in a financial benefit to the interested stockholder. An “interested stockholder” is a person who together with affiliates and associates (i) owns 15% or more of a corporation’s voting stock or (ii) is an affiliate or associate of a corporation and was owner of 15% or more of the corporation’s voting stock within three years prior to the determination of interested stockholder status. Under Section 203, a business combination between a corporation and an interested stockholder is prohibited unless it satisfies one of the following conditions:

- before the stockholder became interested, the board of directors approved either the business combination or the transaction which resulted in the stockholder becoming an interested stockholder;
- upon consummation of the transaction which resulted in the stockholder becoming an interested stockholder, the interested stockholder owned at least 85% of the voting stock of the corporation outstanding at the time the transaction commenced, excluding for purposes of determining the voting stock outstanding, (a) shares owned by persons who are directors and officers, and (b) shares owned by employee stock plans in which employee participants do not have the right to determine confidentially whether shares held subject to the plan will be tendered in a tender or exchange offer; or
- at or after the time the stockholder became interested, the business combination was approved by the board of directors of the corporation and authorized at an annual or special meeting of the stockholders by the affirmative vote of at least two-thirds of the outstanding voting stock which is not owned by the interested stockholder.

A Delaware corporation may “opt out” of Section 203 with an express provision in its original certificate of incorporation or an express provision in its certificate of incorporation or amended and restated by-laws resulting from amendments approved by holders of at least a majority of the corporation’s outstanding voting shares. An amendment to the certificate of incorporation or by-laws of a corporation in order to “opt out” of Section 203 will not be effective until 12 months after adoption of such amendment. The “opt out” of Section 203 will not apply to any business combination between such corporation and any person who became an interested stockholder of such corporation on or prior to the adoption of such amendment. A by-law amendment adopted in order to “opt out” of Section 203 may not be further amended by the board of directors. We have not elected to “opt out” of Section 203.

Exclusive Forum

Our amended and restated by-laws provide that, unless we consent in writing to the selection of an alternative forum, the sole and exclusive forum for (i) any derivative action or proceeding brought on behalf of the Company, (ii) any action asserting a claim of breach of a fiduciary duty owed by any of our directors, officers, or other employees to us or our stockholders, (iii) any action asserting a claim against us or any of our directors or officers or other employees arising pursuant to any provision of the DGCL or our restated certificate of incorporation or amended and restated by-laws, or (iv) any action asserting a claim governed by the internal affairs doctrine shall be a state court located within the State of Delaware (or, if no state court located within the State of Delaware has jurisdiction, the federal district court for the District of Delaware).

Limitation of Liability and Indemnification of Directors and Officers

Our restated certificate of incorporation includes provisions that limit the personal liability of our directors for monetary damages for breach of their fiduciary duties as directors to the fullest extent permitted by the

Table of Contents

DGCL. Such limitation shall not apply, except to the extent permitted by the DGCL, (i) for liability under Section 174 of the DGCL, (ii) for any breach of the director's duty of loyalty to us or our stockholders, (iii) for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law, or (iv) for any transaction from which such director derived an improper personal benefit. These provisions will have no effect on the availability of equitable remedies such as an injunction or rescission based on a director's breach of his or her duty of care unless permitted under the DGCL.

Our restated certificate of incorporation and our amended and restated by-laws provide for indemnification, to the fullest extent permitted by the DGCL, of any person made or threatened to be made a party to any threatened, pending, or completed action, suit, or proceeding by reason of the fact that such person is or was a director, officer, employee, or agent of the Company, or, at the request of the Company, serves or served as a director, officer, employee, or agent of another corporation, partnership, joint venture, trust, or any other enterprise, against all expenses, including attorney's fees, judgments, fines, and amounts paid in settlement actually and reasonably incurred in connection with the defense or settlement of such action, suit, or proceeding.

In addition, we have entered into indemnification agreements with each of our directors and officers pursuant to which we will agree to indemnify each such executive officer and director to the fullest extent permitted by the DGCL.

Insofar as indemnification for liabilities arising under the Securities Act of 1933, as amended (the "Securities Act"), may be permitted to directors, officers, or persons controlling the Company pursuant to the foregoing provisions, the Company has been informed that in the opinion of the SEC such indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable.

Stockholders Agreement

Concurrent with our entry into the Agreement and Plan of Merger to acquire OneWest, which was completed on August 3, 2015, we entered into a Stockholders Agreement with OneWest Holders, who collectively owned over 90% of OneWest's common interests. Pursuant to the Stockholders Agreement, the OneWest Holders agreed not to, directly or indirectly, without the Company's written consent, (i) form a "group" with other OneWest Holders with respect to any of our voting securities, (ii) otherwise act with other OneWest Holders to seek to control or influence our Board of Directors or management or policies, (iii) publicly disclose any intention or plan prohibited by or inconsistent with clauses (i) and (ii), (iv) transfer any shares of our common stock received in the merger for 90 days following the closing of the merger, subject to certain exceptions, (v) transfer more than half of each OneWest Holder's shares of our common stock received in the merger for 180 days following the closing of the merger, subject to certain exceptions, or (vi) transfer any shares of our common stock received in the merger to a person or group who, to the knowledge of such OneWest Holder, would beneficially own 5% or more of the outstanding common stock following such transfer, subject to certain exceptions. The restrictions on each OneWest Holder remain in effect until such OneWest Holder owns 20% or less of the shares of our common stock received by such OneWest Holder in the merger.

Pursuant to the Stockholders Agreement, within 90 days following the closing of the merger, we were required to file one or more registration statements with the SEC covering the public resale of common stock beneficially owned by the OneWest Holders (the "registrable securities"). Following such 90th day after the closing of the merger, the OneWest Holders holding a majority of the then outstanding registrable securities became entitled to request that we effect an underwritten offering of the registrable securities (a "takedown request"). We will not be obligated to effect more than one takedown request. If we are no longer eligible to use an automatic shelf registration statement as defined in Rule 405 under the Securities Act following such 90th day after the closing of the merger, the OneWest Holders holding a majority of the then outstanding registrable securities may request that we file a registration statement and effect an underwritten offering of the registrable securities (a "demand registration"). We will not be obligated to effect more than one demand registration. In addition, following such 90th day after the closing of the merger, the OneWest Holders gained certain

“piggyback” registration rights, pursuant to which they will be entitled to register the resale of its registrable securities alongside any offering of our common stock or other equity interests that we may undertake. The amount of securities we may offer may be subject to “cutback” in certain such registered offerings. These registration rights may be transferred by the OneWest Holders to any person or group to which transfer is permitted under the Stockholders Agreement. We will be responsible for the expenses associated with any sale under the agreement by the OneWest Holders, except for their legal fees and underwriting discounts, selling commissions, and transfer taxes applicable to such sale. We agreed to indemnify the OneWest Holders in connection with certain Securities Act and Exchange Act liabilities. The Stockholders Agreement will terminate at such time as no registrable securities remain outstanding.

Listing

Our common stock is listed on the New York Stock Exchange (the “NYSE”) under the symbol “CIT”.

Transfer Agent and Registrar

The transfer agent and registrar for our common stock is Computershare Trust Company, N.A. The transfer agent’s address is P.O. Box 43006, Providence, Rhode Island 02940.

DESCRIPTION OF WARRANTS

General

We may issue warrants to purchase our debt securities, common stock, or preferred stock. The warrants may be issued independently or together with any underlying securities and may be attached or separate from those underlying securities. We will issue each series of warrants under one or more warrant agreements to be entered into between us and a warrant agent to be named in the applicable prospectus supplement. The warrant agent will act solely as our agent in connection with the warrants and will not assume any obligation or relationship of agency or trust for or with any holders or beneficial owners of warrants.

The prospectus supplement relating to any warrants that we may offer will contain the specific terms of the warrants. These terms may include, but are not limited to, the following:

- the title of the warrants;
- the total number of warrants;
- the price or prices at which the warrants will be issued;
- the designation, amount, and terms of the underlying securities purchasable upon exercise of the warrants;
- the price or prices at which the underlying securities purchasable upon exercise of the warrants may be purchased;
- the terms of any mandatory or optional redemption provisions relating to the warrants;
- the terms of any right we have to accelerate the exercise of the warrants upon the occurrence of certain events;
- the date on which the right to exercise the warrants will commence and the date on which the right will expire;
- if applicable, the date on and after which the warrants and the underlying securities purchasable upon exercise of the warrants will be separately transferable;

- information with respect to book-entry procedures, if any; and
- any other terms of the warrants, including terms, procedures, and limitations relating to the exchange and exercise of the warrants.

Each warrant will entitle the holder to purchase for cash an amount of securities at an exercise price that will be stated in, or that will be determinable as described in, the applicable prospectus supplement. Warrants may be exercised at any time up to the close of business on the expiration date shown in the applicable prospectus supplement, unless otherwise specified in such prospectus supplement. After the close of business on the expiration date, unexercised warrants will become void.

Warrants may be exercised as set forth in the applicable prospectus supplement. Upon receipt of payment and the warrant certificate properly completed and duly executed at the corporate trust office of the warrant agent or any other office indicated in the prospectus supplement, we will, as soon as practicable, forward the securities purchasable upon such exercise. If less than all of the warrants represented by such warrant certificate are exercised, a new warrant certificate will be issued for the remaining warrants.

Table of Contents

The description in the applicable prospectus supplement of any warrants we offer will not necessarily be complete and will be qualified in its entirety by reference to the applicable warrant agreement and warrant certificate, which will be filed with the SEC if we offer warrants. We urge you to read the applicable warrant certificate, the applicable warrant agreement, and any applicable prospectus supplement in their entirety.

UNITED STATES TAXATION

This section describes the material United States federal income tax consequences of owning the senior debt securities, subordinated debt securities, common stock and preferred stock (together, the “Securities”) that we may offer. This section does not address the tax treatment of any warrants that we may offer. The tax treatment of such warrants will be discussed in an applicable prospectus supplement.

The discussion below is the opinion of Sullivan & Cromwell, LLP, counsel to the Company. It applies to you only if you acquire Securities in an initial offering and you hold your Securities as capital assets for tax purposes. This section does not apply to you if you are a member of a class of holders subject to special rules, such as:

- a dealer in securities,
- a trader in securities that elects to use a mark-to-market method of accounting for your securities holdings,
- a bank,
- a life insurance company,
- a tax-exempt organization,
- a person that owns Securities that are a hedge or that are hedged against interest rate risks,
- a person that owns Securities as part of a straddle or conversion transaction for tax purposes,
- a person that purchases or sells Securities as part of a wash sale for tax purposes, or
- a United States holder (as defined below) whose functional currency for tax purposes is not the U.S. dollar.

This section is based on the Internal Revenue Code of 1986, as amended (the “Code”), its legislative history, existing and proposed regulations under the Code, published rulings, and court decisions, all as currently in effect. These laws are subject to change, possibly on a retroactive basis.

You are a United States holder if, for United States federal income tax purposes, you are a beneficial owner of a Security and you are:

- a citizen or resident of the United States,
- a domestic corporation,
- an estate whose income is subject to United States federal income tax regardless of its source, or
- a trust if a United States court can exercise primary supervision over the trust’s administration and one or more United States persons are authorized to control all substantial decisions of the trust or a trust that has made a qualified election to be treated as a United States person.

You are a non-United States holder if, for U.S. federal income tax purposes, you are the beneficial owner of a Security and you are:

- a nonresident alien individual,
- a foreign corporation, or
- an estate or trust that in either case is not subject to United States federal income tax on a net income basis on income or gain from a debt security.

Table of Contents

If an entity treated as a partnership for United States federal income tax purposes holds the Securities, the United States federal income tax treatment of a partner will generally depend on the status of the partner and the tax treatment of the partnership. A partner in a partnership holding the Securities should consult its own tax advisor with regard to the United States federal income tax treatment of an investment in the Securities.

Please consult your own tax advisor concerning the consequences of owning these Securities in your particular circumstances under the Code and the laws of any other taxing jurisdiction.

Taxation of Debt Securities

This subsection deals only with debt securities denominated in U.S. dollars that provide interest payments at a single fixed rate, that are due to mature more than one year but 30 years or less from the date on which they are issued and are not “contingent payment debt instruments” for United States federal income tax purposes. In addition, this subsection does not deal with (i) debt securities that provide for any options or contingent payment; (ii) debt securities that are convertible into other securities of the Company and/or exchangeable for securities of the Company or other issuers; (iii) debt securities with respect to which less than the principal amount of the debt securities will be payable upon declaration of acceleration of the maturity of the debt securities; (iv) debt securities that provide for pre-issuance accrued interest; (v) debt securities that are issued upon the exercise of warrants; (vi) debt securities with respect to which any event of default is deleted, modified, or added; and (vii) Bearer Securities. The United States federal income tax consequences of owning debt securities that are excluded from the discussion herein will be discussed in the applicable prospectus supplement.

This subsection applies only to debt securities issued at a single offering price that will not exceed the principal amount of such debt securities. If you purchase debt securities at a price other than the offering price, the amortizable bond premium, acquisition premium, or market discount rules may also apply to you. You should consult your own tax advisor regarding this possibility.

You should consult a tax advisor regarding the United States federal tax consequences of acquiring, holding, and disposing of the debt securities in your particular circumstances, as well as any tax consequences that may arise under the laws of any state, local, or foreign taxing jurisdiction.

United States Holders

This subsection describes certain U.S. federal income tax consequences to a United States holder (as defined above). If you are a non-United States holder, this subsection does not apply to you and you should refer to “—Non-United States Holders” below.

Payments of Interest

Except as described below in the case of interest on a discount debt security that is not qualified stated interest, each as defined below under “—Original Issue Discount—General”, you will be taxed on any interest on your debt security as ordinary income at the time you receive the interest or when it accrues, depending on your method of accounting for United States federal income tax purposes.

Original Issue Discount

General. A debt security is treated as being issued at an original issue discount if the amount by which the debt security’s stated redemption price at maturity exceeds its issue price is more than a de minimis amount. Generally, a debt security’s issue price will be the first price at which a substantial amount of debt securities included in the issue of which the debt security is a part is sold to persons other than bond houses, brokers, or similar persons or organizations acting in the capacity of underwriters, placement agents, or wholesalers. A debt

Table of Contents

security's stated redemption price at maturity is the total of all payments provided by the debt security that are not payments of qualified stated interest. Generally, an interest payment on a debt security is qualified stated interest if it is one of a series of stated interest payments on a debt security that are unconditionally payable at least annually at a single fixed rate, with certain exceptions for lower rates paid during some periods, applied to the outstanding principal amount of the debt security.

In general, your debt security is not a discount debt security if the amount by which its stated redemption price at maturity exceeds its issue price is less than the de minimis amount of $\frac{1}{4}$ of 1 percent of its stated redemption price at maturity multiplied by the number of complete years to its maturity. Your debt security would have de minimis original issue discount if the amount of the excess is less than the de minimis amount. If your debt security has de minimis original issue discount, you would include the de minimis amount in income as stated principal payments are made on the debt security, unless you make the election described below under "—Election to Treat All Interest as Original Issue Discount". You can determine the includible amount with respect to each such payment by multiplying the total amount of your debt security's de minimis original issue discount by a fraction equal to:

- the amount of the principal payment made divided by:
- the stated principal amount of the debt security.

Generally, if your discount debt security matures more than one year from its date of issue, you would include original issue discount, or OID, in income before you receive cash attributable to that income. The amount of OID that you would include in income is calculated using a constant-yield method, and generally you would include increasingly greater amounts of OID in income over the life of your debt security. More specifically, you can calculate the amount of OID that you would include in income by adding the daily portions of OID with respect to your discount debt security for each day during the taxable year or portion of the taxable year that you hold your discount debt security. You can determine the daily portion by allocating to each day in any accrual period a pro rata portion of the OID allocable to that accrual period. You may select an accrual period of any length with respect to your discount debt security and you may vary the length of each accrual period over the term of your discount debt security. However, no accrual period may be longer than one year and each scheduled payment of interest or principal on the discount debt security must occur on either the first or final day of an accrual period.

You can determine the amount of OID allocable to an accrual period by:

- multiplying your discount debt security's adjusted issue price at the beginning of the accrual period by your debt security's yield to maturity, and then
- subtracting from this figure the sum of the payments of qualified stated interest on your debt security allocable to the accrual period.

You must determine the discount debt security's yield to maturity on the basis of compounding at the close of each accrual period and adjusting for the length of each accrual period. Further, you determine your discount debt security's adjusted issue price at the beginning of any accrual period by:

- adding your discount debt security's issue price and any accrued OID for each prior accrual period, and then
- subtracting any payments previously made on your discount debt security that were not qualified stated interest payments.

If an interval between payments of qualified stated interest on your discount debt security contains more than one accrual period, then, when you determine the amount of OID allocable to an accrual period, you would allocate the amount of qualified stated interest payable at the end of the interval, including any qualified stated

Table of Contents

interest that is payable on the first day of the accrual period immediately following the interval, pro rata to each accrual period in the interval based on their relative lengths. In addition, you would increase the adjusted issue price at the beginning of each accrual period in the interval by the amount of any qualified stated interest that has accrued prior to the first day of the accrual period but that is not payable until the end of the interval. You may compute the amount of OID allocable to an initial short accrual period by using any reasonable method if all other accrual periods, other than a final short accrual period, are of equal length.

The amount of OID allocable to the final accrual period is equal to the difference between:

- the amount payable at the maturity of your debt security, other than any payment of qualified stated interest, and
- your debt security's adjusted issue price as of the beginning of the final accrual period.

Election to Treat All Interest as Original Issue Discount. You may elect to include in gross income all interest that accrues on your debt security using the constant-yield method described above under “—General”, with the modifications described below. For purposes of this election, interest will include stated interest, OID, or de minimis original issue discount.

If you make this election for your debt security, then, when you apply the constant-yield method:

- the issue price of your debt security would equal your cost,
- the issue date of your debt security would be the date you acquired it, and
- no payments on your debt security would be treated as payments of qualified stated interest.

You should consult your own tax advisor regarding the consequences of making this election.

Purchase, Sale, Retirement and Other Disposition of Debt Securities

You will generally recognize gain or loss on the sale or retirement of your debt security equal to the difference between the amount you realize on the sale or retirement, excluding any amounts attributable to accrued but unpaid stated interest (which will be treated as interest payments), and your adjusted tax basis in your debt security. Your tax basis in your debt security is generally the cost you paid for the debt security, increased by any OID included in your income. Such gain or loss will be capital gain or loss. Capital gain of a non-corporate United States holder is generally taxed at preferential rates where the property is held for more than one year.

Medicare Tax

A United States holder that is an individual or estate, or a trust that does not fall into a special class of trusts that is exempt from such tax, is subject to a 3.8% tax (the “Medicare tax”) on the lesser of (1) the United States holder's “net investment income” (or “undistributed net investment income” in the case of an estate or trust) for the relevant taxable year and (2) the excess of the United States holder's modified adjusted gross income for the taxable year over a certain threshold (which in the case of individuals is between \$125,000 and \$250,000, depending on the individual's circumstances). A holder's net investment income generally includes its interest income (including any accrued OID) and its net gains from the disposition of debt securities, unless such interest income or net gains are derived in the ordinary course of the conduct of a trade or business (other than a trade or business that consists of certain passive or trading activities). If you are a United States holder that is an individual, estate, or trust, you are urged to consult your own tax advisors regarding the applicability of the Medicare tax to your income and gains in respect of your investment in the debt securities.

Non-United States Holders

This subsection describes certain U.S. federal income and estate tax consequences to a non-United States holder (as defined above). If you are a United States holder, this subsection does not apply to you and you should refer to “—United States Holders” above.

Under United States federal income tax law, and subject to the discussions of FATCA withholding and backup withholding below, if you are a non-United States holder of a debt security:

- we and other U.S. payors generally would not be required to deduct United States withholding tax from payments of principal, premium, if any, and interest (including any OID) to you if, in the case of payments of interest:
 - (i) you do not actually or constructively own 10% or more of the total combined voting power of all classes of stock of the Company entitled to vote,
 - (ii) you are not a controlled foreign corporation that is related to the Company through stock ownership,
 - (iii) you are not a bank whose receipt of interest on the debt securities is described in Section 881(c)(3)(A) of the Code, and
 - (iv) the U.S. payor does not have actual knowledge or reason to know that you are a United States person and:
 - (a) you have furnished to the U.S. payor an Internal Revenue Service (“IRS”) Form W-8BEN or W-8BEN-E or an acceptable substitute form upon which you certify, under penalties of perjury, that you are a non-United States person,
 - (b) in the case of payments made outside the United States to you at an offshore account (generally, an account maintained by you at a bank or other financial institution at any location outside the United States), you have furnished to the U.S. payor documentation that establishes your identity and your status as the beneficial owner of the payment for United States federal income tax purposes and as a non-United States person,
 - (c) the U.S. payor has received a withholding certificate (furnished on an appropriate IRS Form W-8 or an acceptable substitute form) from a person claiming to be:
 1. a withholding foreign partnership (generally a foreign partnership that has entered into an agreement with the IRS to assume primary withholding responsibility with respect to distributions and guaranteed payments it makes to its partners),
 2. a qualified intermediary (generally a non-United States financial institution or clearing organization or a non-United States branch or office of a United States financial institution or clearing organization that is a party to a withholding agreement with the IRS), or
 3. a U.S. branch of a non-United States bank or of a non-United States insurance company,and the withholding foreign partnership, qualified intermediary, or U.S. branch has received documentation upon which it may rely to treat the payment as made to a non-United States person that is, for United States federal income tax purposes, the beneficial owner of the payment on the debt securities in accordance with U.S. Treasury regulations (or, in the case of a qualified intermediary, in accordance with its agreement with the IRS),

Table of Contents

- (d) the U.S. payor receives a statement from a securities clearing organization, bank, or other financial institution that holds customers' securities in the ordinary course of its trade or business,
 - 1. certifying to the U.S. payor under penalties of perjury that an IRS Form W-8BEN or W-8BEN-E or an acceptable substitute form has been received from you by it or by a similar financial institution between it and you, and
 - 2. to which is attached a copy of the IRS Form W-8BEN or W-8BEN-E or acceptable substitute form, or
 - (e) the U.S. payor otherwise possesses documentation upon which it may rely to treat the payment as made to a non-United States person that is, for United States federal income tax purposes, the beneficial owner of the payments on the debt securities in accordance with U.S. Treasury regulations; and
- in the case of payments of interest, if you cannot meet any of the requirements listed above, such interest payments will generally be subject to withholding of United States federal income tax at a rate of 30%, unless you provide us or our paying agent with a properly executed IRS Form W-8BEN or W-8BEN-E claiming an exemption from (or reduction in) withholding under an applicable income tax treaty or a properly executed IRS Form W-8ECI claiming that the interest is effectively connected with your conduct of a United States trade or business. Such "effectively connected" interest will be taxed as described below.
 - any gain that you realize on the sale or exchange of your debt security generally is not subject to U.S. federal income tax unless (i) you are an individual and are present in the United States for 183 or more days in the taxable year of the sale or exchange and certain other conditions exist, in which case any such gain (net of certain U.S. source losses) will be subject to U.S. federal income tax at a rate of 30% (or at a reduced rate under an applicable income tax treaty) or (ii) such gain is effectively connected with your conduct of a United States trade or business (which will be taxed as described below).
 - with respect to any interest or gain that is effectively connected with your conduct of a United States trade or business, you will be subject to United States federal income tax generally in the same manner as if you were a United States holder unless an applicable income tax treaty provides otherwise. In addition, if you are a foreign corporation that is engaged in a trade or business in the United States, you may be subject to a branch profits tax at a rate of 30% (or at a reduced rate under an applicable income tax treaty).

Federal Estate Taxes

A debt security held by an individual who at death is not a citizen or resident of the United States (as specifically defined for United States federal estate tax purposes) would not be includible in the individual's gross estate for United States federal estate tax purposes if:

- the decedent did not actually or constructively own 10% or more of the total combined voting power of all classes of stock of the Company entitled to vote at the time of death and
- the income on the debt security would not have been effectively connected with a United States trade or business of the decedent at the same time.

FATCA Withholding

A 30% withholding tax ("FATCA withholding") may be imposed on certain payments to you or to certain foreign financial institutions, investment funds, and other non-U.S. persons receiving payments on your behalf if you or such persons fail to comply with certain information reporting requirements. Such payments will include U.S.-source interest and the gross proceeds from the sale or other disposition of debt securities that can produce

Table of Contents

U.S.-source interest. Payments of interest that you receive in respect of the debt securities if you are, or hold your debt securities through, a foreign financial institution or non-financial foreign entity generally will be subject to FATCA withholding unless (1) if you are, or hold your debt securities through, a foreign financial institution, such foreign financial institution (i) has entered into an agreement with the U.S. government to collect and provide to the U.S. tax authorities information about its accountholders (including certain investors in such institution), (ii) qualifies for an exception from the requirement to enter into such an agreement, or (iii) complies with the terms of an applicable intergovernmental agreement between the U.S. government and the jurisdiction in which such foreign financial institution operates and (2) if you are, or hold your debt securities through, a non-financial foreign entity, such entity has provided certain information regarding its direct and indirect U.S. owners. Payments of gross proceeds from a sale or other disposition of debt securities could also be subject to FATCA withholding unless such disposition occurs before January 1, 2019. Certain countries have entered into, and other countries are expected to enter into, agreements with the United States to facilitate the type of information reporting required under FATCA. Such intergovernmental agreements may provide different rules with respect to non-U.S. financial institutions. You should consult your own tax advisors regarding the relevant U.S. law, intergovernmental agreements, and other official guidance on FATCA withholding.

Backup Withholding and Information Reporting

In general, if you are a non-corporate United States holder, we and other payors are required to report to the IRS all payments of principal, any premium and interest (including accrual of any OID) on your debt security. In addition, we and other payors are required to report to the IRS any payment of proceeds of the sale of your debt security before maturity within the United States. Additionally, backup withholding would apply to any payments if you fail to provide an accurate taxpayer identification number, or (in the case of interest payments) you are notified by the IRS that you have failed to report all interest and dividends required to be shown on your federal income tax returns.

In general, if you are a non-United States holder, we and other payors are required to report payments of interest (including any OID) on your debt securities on IRS Form 1042-S. Payments of principal, premium, or interest made by us and other payors to you would otherwise not be subject to information reporting and backup withholding, *provided* that the certification requirements described above under “—Non-United States Holders” are satisfied or you otherwise establish an exemption. In addition, payment of the proceeds from the sale (including a retirement or redemption) of debt securities effected at a United States office of a broker will not be subject to backup withholding and information reporting if (i) the payor or broker does not have actual knowledge or reason to know that you are a United States person and (ii) you have furnished to the payor or broker an appropriate IRS Form W-8, an acceptable substitute form or other documentation upon which it may rely to treat the payment as made to a non-United States person.

In general, payment of the proceeds from the sale of debt securities effected at a foreign office of a broker will not be subject to information reporting or backup withholding. However, a sale (including a retirement or redemption) effected at a foreign office of a broker could be subject to information reporting in the same manner as a sale within the United States (and in certain cases may be subject to backup withholding as well) if (i) the broker has certain connections to the United States, (ii) the proceeds or confirmation are sent to the United States, or (iii) the sale has certain other specified connections with the United States.

You generally may obtain a refund of any amounts withheld under the backup withholding rules that exceed your income tax liability by timely filing a refund claim with the IRS.

Taxation of Common Stock and Preferred Stock

This subsection summarizes certain United States federal income and estate tax consequences of the ownership and disposition of common stock and preferred stock (together, “Stock”).

Table of Contents

This subsection does not address (i) preferred stock that is convertible into, or exchangeable for, common stock of the Company; (ii) preferred stock that can be redeemed for an amount less than or in excess of the issue price of the preferred stock; or (iii) preferred stock that provides for a dividend rate other than a single fixed dividend rate. The United States federal income tax consequences of owning such Stock will be discussed in the applicable prospectus supplement.

You should consult a tax advisor regarding the United States federal tax consequences of acquiring, holding, and disposing of Stock in your particular circumstances, as well as any tax consequences that may arise under the laws of any state, local or foreign taxing jurisdiction.

United States Holders

This subsection describes the tax consequences to a United States holder (as defined above). If you are non-United States holder, this subsection does not apply to you and you should refer to “—Non-United States Holders” below.

Distributions Made with Respect to Stock

In general, if distributions are made with respect to Stock, the distributions will be treated as dividends to the extent of our current and accumulated earnings and profits, as determined for U.S. federal income tax purposes. Any portion of a distribution in excess of our current and accumulated earnings and profits will be treated first as a nontaxable return of capital reducing your tax basis in your Stock, and thereafter as capital gain, the tax treatment of which is discussed below under “—Sale, Exchange, or Redemption of Stock.” For purposes of the remainder of the discussion in this subsection, it is assumed that dividends paid on Stock will constitute dividends for United States federal income tax purposes.

If you are a corporation, subject to the discussion below under “—Limitations on Dividends-Received Deduction,” dividends that you receive on your Stock will generally be eligible for a 70% dividends-received deduction under the Code, if you will have held such shares, within the meaning of the second subsequent paragraph, for at least 46 days during the 91-day period beginning on the date which is 45 days before the date on which such shares became ex-dividend with respect to such dividend, or, if the dividend is in respect of preferred stock and is attributable to a period or periods aggregating over 366 days, you will have held such Stock, within the meaning of the next paragraph, for at least 91 days during the 181-day period beginning 90 days before the ex-dividend rate.

Under current law, if you are an individual or other non-corporate United States holder, dividends that you receive on your Stock will generally be subject to reduced rates of taxation, if (i) you do not elect to treat the dividends as “investment income,” which may be offset by investment expense and (ii) you will have held such Stock, within the meaning of the next paragraph, for at least 61 days during the 121-day period beginning on the date which is 60 days before the date on which such Stock become ex-dividend with respect to such dividend or, if the dividend is in respect of preferred stock and is attributable to a period or periods aggregating over 366 days, you will have held such Stock, within the meaning of the next paragraph, for at least 91 days during the 181-day period beginning 90 days before the ex-dividend date.

In general, for purposes of meeting the holding period requirements for both the dividends-received deduction and the reduced tax rates on dividends described above, you may not count towards your holding period any period in which you (a) have the option to sell, are under a contractual obligation to sell, or have made (and not closed) a short sale of your Stock or substantially identical stock or securities, (b) are the grantor of an option to buy such Stock or substantially identical stock or securities, or (c) otherwise have diminished your risk of loss by holding one or more other positions with respect to substantially similar or related property. In general,

Table of Contents

a taxpayer has diminished its risk of loss on stock by holding a position in substantially similar or related property if the taxpayer is the beneficiary of a guarantee, surety agreement, or similar arrangement that provides for payments that will substantially offset decreases in the fair market value of the stock. In addition, the dividends-received deduction, as well as the reduced maximum tax rate on dividends, are disallowed if the recipient of a dividend is obligated to make related payments with respect to positions in substantially similar or related property. This disallowance applies even if the minimum holding period has been met. You are advised to consult your own tax advisor regarding the implications of these rules in light of your particular circumstances.

Limitations on Dividends-Received Deduction

If you are a corporation, you may not be entitled to take the 70% dividends-received deduction in all circumstances and, even if you are so entitled, you may be subject to special rules in respect of your ownership of Stock. Prospective corporate investors in Stock should consider the effect of:

- Section 246A of the Code, which reduces the dividends-received deduction allowed to a corporate shareholder that has incurred indebtedness that is “directly attributable” to an investment in portfolio stock such as the Stock; and
- Section 1059 of the Code, which, under certain circumstances, reduces the basis of stock for purposes of calculating gain or loss in a subsequent disposition by the portion of any “extraordinary dividend” that is eligible for the dividends-received deduction.

Sale, Exchange, or Redemption of Stock

A sale, exchange, or other disposition of your Stock will generally result in gain or loss equal to the difference between the amount realized upon the disposition and your adjusted tax basis in the Stock, which will generally equal your purchase price of the Stock, subject to reduction (if applicable) as described under the caption “—Distributions Made with Respect to Stock” above. Such gain or loss will be capital gain or loss and will be long-term capital gain or loss if your holding period for Stock exceeds one year. Long-term capital gain recognized by a non-corporate U.S. holder is generally eligible for reduced rates of taxation. The deductibility of capital losses is subject to limitations.

A redemption of the Stock for cash will be treated as a sale or exchange, taxable as described in the preceding paragraph, if (i) the redemption is “not essentially equivalent to a dividend,” (ii) “substantially disproportionate” with respect to you, (iii) “in complete redemption” of your interest in the Stock, or, (iv) in the case of non-corporate United States holders, “in partial liquidation” of the Company, each of the above within the meaning of Section 302(b) of the Code. In determining whether any of these tests has been met, shares of Stock considered to be owned by you by reason of certain constructive ownership rules set forth in Section 318 of the Code, as well as shares actually owned, must be taken into account. If none of the above standards is satisfied, then a payment in redemption of Stock will be treated as a distribution subject to the tax treatment described above under “—Distributions Made with Respect to Stock.”

You are strongly encouraged to consult your own tax advisor regarding the characterization of a redemption payment under the rules described in this subsection and the consequences of such characterization to you.

Medicare Tax

A United States holder that is an individual or estate, or a trust that does not fall into a special class of trusts that is exempt from such tax, is subject to a 3.8% tax on the lesser of (1) the United States holder’s “net investment income” (or “undistributed net investment income” in the case of an estate or trust) for the relevant taxable year and (2) the excess of the United States holder’s modified adjusted gross income for the taxable year over a certain threshold (which in the case of individuals is between \$125,000 and \$250,000, depending on the individual’s circumstances). A United States holder’s net investment income generally includes its dividend

Table of Contents

income and its net gains from the disposition of Stock, unless such dividend income or net gains are derived in the ordinary course of the conduct of a trade or business (other than a trade or business that consists of certain passive or trading activities). If you are a United States holder that is an individual, estate, or trust, you are urged to consult your own tax advisors regarding the applicability of the Medicare tax to your income and gains in respect of your investment in the Stock.

Non-United States Holders

This subsection describes the tax consequences to a non-United States holder (as defined above). If you are a United States holder, this subsection does not apply to you and you should refer to “—United States Holders” above.

Distributions Made with Respect to Stock

Except as described below, if you are a non-United States holder of Stock, distributions made to you are subject to withholding of United States federal income tax at a 30% rate or at a lower rate if you are eligible for the benefits of an income tax treaty that provides for a lower rate. Even if you are eligible for a lower treaty rate, we and other payors will generally be required to withhold at a 30% rate (rather than the lower treaty rate) on distributions to you, unless you have furnished to us or another payor:

- a valid IRS Form W-8 or an acceptable substitute form upon which you certify, under penalties of perjury, your status as a non-United States person and your entitlement to the lower treaty rate with respect to such payments, or
- in the case of payments made outside the United States to an offshore account (generally, an account maintained by you at an office or branch of a bank or other financial institution at any location outside the United States), other documentary evidence establishing your entitlement to the lower treaty rate in accordance with U.S. Treasury regulations.

If you are eligible for a reduced rate of United States withholding tax under an applicable income tax treaty, you may obtain a refund of any amounts withheld in excess of that rate by filing a refund claim with the IRS.

If distributions made to you are “effectively connected” with your conduct of a trade or business within the United States, unless an applicable income tax treaty applies, we and other payors generally are not required to withhold tax from such distributions, *provided* that you have furnished us or another payor a valid IRS Form W-8ECI or an acceptable substitute form upon which you represent, under penalties of perjury, that:

- you are a non-United States person, and
- the dividends are effectively connected with your conduct of a trade or business within the United States and are includible in your gross income.

If an income tax treaty applies to distributions received by you and it is determined that any “effectively connected” distribution is not attributable to any permanent establishment, U.S. federal withholding tax may nevertheless apply depending on your circumstances. You are urged to consult your own tax advisor regarding this treatment.

“Effectively connected” distributions are taxed at rates applicable to United States citizens, resident aliens and United States corporations.

If you are a corporate non-United States holder, “effectively connected” distributions that you receive may, under certain circumstances, be subject to an additional “branch profits tax” at a 30% rate or at a lower rate if you are eligible for the benefits of an applicable income tax treaty that provides for a lower rate.

Table of Contents

Sale, Exchange, or Redemption of Stock

If you are a non-United States holder, you generally will not be subject to United States federal income tax on gain that you recognize on a sale or exchange of your Stock unless:

- the gain is “effectively connected” with your conduct of a trade or business in the United States, and the gain is attributable to a permanent establishment that you maintain in the United States, if required by an applicable income tax treaty as a condition for subjecting you to United States taxation on a net income basis, in which case such gain will be taxed as described below,
- you are an individual, you hold your Stock as a capital asset, you are present in the United States for 183 or more days in the taxable year of the sale and certain other conditions exist (in which case any such gain (net of certain U.S. source losses) will be subject to U.S. federal income tax at a rate of 30% (or at a reduced rate under an applicable income tax treaty)), or
- we are or have been a United States real property holding corporation for federal income tax purposes and you held, directly or indirectly, at any time during the five-year period ending on the date of disposition, more than 5% of the class of Stock that you are selling or exchanging (assuming such Stock is treated as regularly traded on an established securities market for federal income tax purposes) and you are not eligible for any treaty exemption.

If you are a corporate non-United States holder, “effectively connected” gains that you recognize will be subject to United States federal income tax generally in the same manner as if you were a United States holder unless an applicable income tax treaty provides otherwise. Such gain may also, under certain circumstances, be subject to an additional “branch profits tax” at a 30% rate or at a lower rate if you are eligible for the benefits of an income tax treaty that provides for a lower rate.

We have not been, are not and do not anticipate becoming a United States real property holding corporation for United States federal income tax purposes.

Federal Estate Taxes

Stock held by an individual who is not a citizen or resident of the United States (as specifically defined for United States federal estate tax purposes) at the time of death will be included in the holder’s gross estate for United States federal estate tax purposes, unless an applicable estate tax treaty provides otherwise.

FATCA Withholding

A 30% withholding tax (“FATCA withholding”) may be imposed on certain payments to you or to certain foreign financial institutions, investment funds and other non-U.S. persons receiving payments on your behalf if you or such persons fail to comply with certain information reporting requirements. Such payments will include U.S.-source dividends and the gross proceeds from the sale or other disposition of stock that can produce U.S.-source dividends. Payments of dividends that you receive in respect of the Stock if you are, or hold your stock through, a foreign financial institution or non-financial foreign entity generally will be subject to FATCA withholding unless (1) if you are, or hold your stock through, a foreign financial institution, such foreign financial institution (i) has entered into an agreement with the U.S. government to collect and provide to the U.S. tax authorities information about its accountholders (including certain investors in such institution), (ii) qualifies for an exception from the requirement to enter into such an agreement, or (iii) complies with the terms of an applicable intergovernmental agreement between the U.S. government and the jurisdiction in which such foreign financial institution operates and, (2) if you are, or hold your stock through, a non-financial foreign entity, such entity has provided certain information regarding its direct and indirect U.S. owners. Payments of gross proceeds from a sale or other disposition of the Stock could also be subject to FATCA withholding unless such disposition occurs before January 1, 2019. Certain countries have entered into, and other countries are expected to enter into, agreements with the United States to facilitate the type of information reporting required under FATCA. Such

Table of Contents

intergovernmental agreements may provide different rules with respect to non-U.S. financial institutions. You should consult your own tax advisors regarding the relevant U.S. law, the intergovernmental agreements and other official guidance on FATCA withholding.

Backup Withholding and Information Reporting

If you are a non-corporate United States holder, information reporting requirements, on IRS Form 1099, generally will apply to dividend payments or other taxable distributions made to you, and to the payment of proceeds to you from the sale of Stock effected at a United States office of a broker. Additionally, backup withholding may apply to such payments if you fail to provide an accurate taxpayer identification number on an applicable Form W-8 or are notified by the IRS that you have failed to report all interest and dividends required to be shown on your federal income tax returns.

In general, if you are a non-United States holder, we and other payors are required to report payments of dividends on your Stock on IRS Form 1042-S. In addition, payment of the proceeds from the sale of the Stock effected at a United States office of a broker will not be subject to backup withholding and information reporting if (i) the payor or broker does not have actual knowledge or reason to know that you are a United States person and (ii) you have furnished to the payor or broker an appropriate IRS Form W-8, an acceptable substitute form, or other documentation upon which it may rely to treat the payment as made to a non-United States person.

In general, payment of the proceeds from the sale of the Stock effected at a foreign office of a broker will not be subject to information reporting or backup withholding. However, a sale effected at a foreign office of a broker could be subject to information reporting in the same manner as a sale within the United States (and in certain cases may be subject to backup withholding as well) if (i) the broker has certain connections to the United States, (ii) the proceeds or confirmation are sent to the United States, or (iii) the sale has certain other specified connections with the United States.

You generally may obtain a refund of any amounts withheld under the backup withholding rules that exceed your income tax liability by timely filing a refund claim with the IRS.

Pending United States Tax Legislation

On November 16, 2017, the United States House of Representatives passed the Tax Cuts and Jobs Act. On December 1, 2017, the United States Senate passed a bill under the same title. While these two bills differ in certain respects, both bills contain provisions that would fundamentally change the U.S. federal income tax laws. For example, the bills would lower U.S. federal income tax rates for individuals and corporations and limit certain federal income tax benefits, including reduction of dividends received deductions. Prospective investors should consult their own tax advisors regarding potential changes in tax laws, including any adverse tax consequences arising from the provisions of the bills.

PLAN OF DISTRIBUTION

We may offer and sell the securities covered by this prospectus, and certain Selling Securityholders may sell common stock, in any of the following three ways (or in any combination) from time to time in one or more transactions:

- through underwriters, dealers, whether individually or through an underwriting syndicate led by one or more managing underwriters, or remarketing firms;
- directly to one or more purchasers, including to a limited number of institutional purchasers; or
- through agents.

Any such dealer or agent, in addition to any underwriter, may be deemed to be an underwriter within the meaning of the Securities Act. Any discounts or commissions received by an underwriter, dealer, remarketing firm, or agent on the sale or resale of securities may be considered by the SEC to be underwriting discounts and commissions under the Securities Act.

In addition, we may enter into derivative transactions with third parties, or sell securities not covered by this prospectus to third parties in privately negotiated transactions. If the applicable prospectus supplement indicates, in connection with such a transaction, the third parties may, pursuant to this prospectus and the applicable prospectus supplement, sell securities covered by this prospectus and the applicable prospectus supplement. If so, the third party may use securities borrowed from us or others to settle such sales and may use securities received from us to close out any related short positions. We may also loan or pledge securities covered by this prospectus and the applicable prospectus supplement to third parties, who may sell the loaned securities or, in an event of default in the case of a pledge, sell the pledged securities pursuant to this prospectus and the applicable prospectus supplement.

The terms of the offering of the securities with respect to which this prospectus is being delivered will be set forth in the applicable prospectus supplement or pricing supplement and will include, among other things:

- the type of and terms of the securities offered;
- the price of the securities;
- the net proceeds to be received by us or by any Selling Securityholders from the sale of the securities;
- the names of the securities exchanges, if any, on which the securities are listed;
- the names of any underwriters, dealers, remarketing firms, or agents and the amount of securities underwritten or purchased by each of them;
- any over-allotment options under which underwriters may purchase additional securities from us;
- any underwriting discounts, agency fees, or other compensation to underwriters or agents; and
- any discounts or concessions which may be allowed or reallocated or paid to dealers.

If underwriters are used in the sale of securities, such securities will be acquired by the underwriters for their own account and may be resold from time to time in one or more transactions, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale. The securities may be offered to the public either through underwriting syndicates represented by managing underwriters or directly by one or more underwriters acting alone. Unless otherwise set forth in the applicable prospectus supplement, the obligations of the underwriters to purchase the securities described in the applicable prospectus supplement will be subject to certain conditions precedent, and the underwriters will be obligated to purchase all such securities if any are purchased by them. Any public offering price and any discounts or concessions allowed or reallocated or paid to dealers may be changed from time to time.

Table of Contents

If dealers acting as principals are used in the sale of any securities, such securities will be acquired by the dealers, as principals, and may be resold from time to time in one or more transactions at varying prices to be determined by the dealer at the time of resale. The name of any dealer and the terms of the transaction will be set forth in the applicable prospectus supplement or pricing supplement with respect to the securities being offered.

Securities may also be offered and sold, if so indicated in the applicable prospectus supplement or pricing supplement, in connection with a remarketing upon their purchase, in accordance with a redemption or repayment pursuant to their terms, or otherwise, by one or more firms, which we refer to herein as the “remarketing firms,” acting as principals for their own accounts or as agents for us or the Selling Securityholders, as applicable. Any remarketing firm will be identified and the terms of its agreement, if any, with us or the Selling Securityholders and its compensation will be described in the applicable prospectus supplement or pricing supplement. Remarketing firms may be deemed to be underwriters, as that term is defined in the Securities Act in connection with the securities remarketed thereby.

The securities may be sold directly by us or the Selling Securityholders or through agents designated by us or the Selling Securityholders from time to time. In the case of securities sold directly by us or the Selling Securityholders, no underwriters or agents would be involved. Any agents involved in the offer or sale of the securities in respect of which this prospectus is being delivered, and any commissions payable by us or the Selling Securityholders to such agents, will be set forth in the applicable prospectus supplement or pricing supplement. Unless otherwise indicated in the applicable prospectus supplement or pricing supplement, any such agent will be acting on a best efforts basis for the period of its appointment.

We and certain Selling Securityholders may authorize agents, underwriters, or dealers to solicit offers by certain specified institutions to purchase the securities to which this prospectus and the applicable prospectus supplement relates from us or the Selling Securityholders at the public offering price set forth in the applicable prospectus supplement or pricing supplement, plus, if applicable, accrued interest, pursuant to delayed delivery contracts providing for payment and delivery on a specified date in the future. Such delayed delivery contracts will be subject only to those conditions set forth in the applicable prospectus supplement or pricing supplement, and the applicable prospectus supplement or pricing supplement will set forth the commission payable for solicitation of these delayed delivery contracts.

Agents, dealers, underwriters, and remarketing firms may be entitled, under agreements entered into by us and the Selling Securityholders, to indemnification by us and the Selling Securityholders against certain civil liabilities, including liabilities under the Securities Act, or to contribution to payments they may be required to make in respect thereof. Agents, dealers, underwriters, and remarketing firms may be customers of, engage in transactions with, or perform services for us or our subsidiaries in the ordinary course of business.

Unless otherwise indicated in the applicable prospectus supplement, all securities offered by this prospectus will be new issues with no established trading market, other than our common stock. Any common stock sold pursuant to a prospectus supplement will be listed on the NYSE, subject to official notice of issuance. We may elect to list any of the securities on one or more exchanges, but, unless otherwise specified in the applicable prospectus supplement, we shall not be obligated to do so. In addition, underwriters will not be obligated to make a market in any securities. No assurance can be given regarding the activity of trading in, or liquidity of, any securities.

Underwriters, dealers, and agents may engage in transactions with, or perform services for, us or our subsidiaries in the ordinary course of their businesses.

Any underwriter may engage in over-allotment, stabilizing transactions, short covering transactions, and penalty bids in accordance with Regulation M under the Exchange Act. Over-allotment involves sales in excess of the offering size, which create a short position. Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum. Short covering transactions involve

purchases of the securities in the open market after the distribution is completed to cover short positions. Penalty bids permit the underwriters to reclaim a selling concession from a dealer when the securities originally sold by the dealer are purchased in a covering transaction to cover short positions. These transactions may be effected on an exchange or automated quotation system, if the securities are listed on that exchange or admitted for trading on that automated quotation system, or in the over-the-counter market or otherwise. These activities may cause the price of the securities to be higher than it would otherwise be. The imposition of a penalty bid might also have an effect on the price of a security to the extent that it were to discourage resales of the security before the distribution is completed.

We make no representations or predictions as to the direction or magnitude of any effect that the transactions described above might have on the price of the securities. In addition, we make no representations that the underwriters will engage in such transactions or that such transactions, once commenced, will not be discontinued without notice.

A Selling Securityholder, if any, may use this prospectus in connection with resales of shares of our common stock. The applicable prospectus supplement will identify the Selling Securityholder, the terms of the securities being offered and sold, and any other necessary information. Any Selling Securityholder may be deemed to be an underwriter in connection with the securities they resell and any profits on such sales may be deemed to be underwriting discounts and commissions under the Securities Act. A Selling Securityholder will receive all the proceeds from the sale of the securities being sold by them pursuant to this prospectus. We will not receive any proceeds from any sales by a Selling Securityholder.

BOOK-ENTRY PROCEDURES FOR DEBT SECURITIES

In this section we describe special considerations that will apply to registered debt securities issued in global, that is book-entry, form.

Global Securities

CIT may issue the global securities in either registered or bearer form, in either temporary or permanent form. Unless the prospectus supplement specifies otherwise, debt securities, when issued, will be represented by a permanent global security or securities, and each permanent global security will be deposited with, or on behalf of, The Depository Trust Company, which we refer to as the “Depository,” and registered in the name of a nominee of the Depository. Investors may elect to hold interests in the global securities through either the Depository (in the United States), or Clearstream or Euroclear (outside of the United States), if they are participants of those systems, or indirectly through organizations that are participants in those systems. Clearstream and Euroclear will hold interests on behalf of their participants through customers’ securities accounts in Clearstream’s and Euroclear’s names on the books of their respective depositories (in those capacities, the “U.S. Depositories”), which in turn will hold the interests in customers’ securities accounts in the depositories’ names on the books of the Depository. Except under the limited circumstances described below, permanent global securities will not be exchangeable for securities in definitive form and will not otherwise be issuable in definitive form.

Ownership of beneficial interests in a permanent global security will be limited to institutions that have accounts with the Depository or its nominee (each a “participant”) or persons who may hold interests through participants. In addition, ownership of beneficial interests by participants in such permanent global security will be evidenced only by, and the transfer of that ownership interest will be effected only through, records maintained by the Depository or its nominee for that permanent global security. Ownership of beneficial interests in such permanent global security by persons who hold through participants will be evidenced only by, and the transfer of that ownership interest within the participant will be effected only through, records maintained by that participant. The Depository has no knowledge of the actual beneficial owners of securities. Beneficial owners will not receive written confirmation from the Depository of their purchase, but beneficial owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the participants through which the beneficial owners entered the transaction. The laws of some jurisdictions require that certain purchasers of securities take physical delivery of securities in definitive form. These laws may impair your ability to transfer your beneficial interests in that permanent global security.

CIT has been advised by the Depository that upon the issuance of a permanent global security and the deposit of that permanent global security with the Depository, the Depository will immediately credit on its book-entry registration and transfer system the respective principal amounts represented by that permanent global security to the accounts of participants.

The paying agent will make all payments on securities represented by a permanent global security registered in the name of or held by the Depository or its nominee to the Depository or its nominee, as the case may be, as the registered owner and holder of the permanent global security representing the securities. The Depository has advised CIT that upon receipt of any payment of principal of, or premium, if any, or interest, if any, on a permanent global security, the Depository will immediately credit, on its book-entry registration and transfer system, accounts of participants with payments in amounts proportionate to their respective beneficial interests in the principal amount of that permanent global security as shown in the records of the Depository or its nominee. We expect that payments by participants to owners of beneficial interests in a permanent global security held through those participants will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers in bearer form or registered in “street name” (i.e., the name of a securities broker or dealer), and will be the sole responsibility of those participants, subject to any statutory or regulatory requirements as may be in effect from time to time.

Table of Contents

None of CIT, any Trustee, any agent of CIT, or any agent of a Trustee will be responsible or liable for any aspect of the records relating to or payments made on account of beneficial interests in a permanent global security or for maintaining, supervising, or reviewing any of the records relating to such beneficial interests.

A permanent global security is exchangeable for definitive securities registered in the name of, and a transfer of a permanent global security may be registered to, any person other than the Depository or its nominee, only if:

- the Depository notifies us that it is unwilling or unable to continue as Depository for that permanent global security or if at any time the Depository ceases to be a clearing agency registered under the Exchange Act, and CIT does not appoint a successor Depository within 90 days;
- CIT, in its discretion, determines that the permanent global security will be exchangeable for definitive securities in registered form; or
- an event of default under the indenture shall have occurred and be continuing, as described in the prospectus, and CIT, the Trustee, or the applicable registrar and paying agent notifies the Depository that the permanent global security will be exchangeable for definitive securities in registered form.

Any permanent global security which is exchangeable will be exchangeable in whole for definitive securities in registered form, of like tenor and of an equal aggregate principal amount as the permanent global security, in denominations of \$1,000 and integral multiples thereof. Those definitive securities will be registered in the name or names of such person or persons as the Depository shall instruct such trustee. CIT expects that those instructions may be based upon directions received by the Depository from its participants with respect to ownership of beneficial interests in the permanent global security.

In the event definitive securities are issued, you may transfer the definitive securities by presenting them for registration to the registrar at its New York office. If you transfer less than all of your definitive securities, you will receive a definitive security or securities representing the retained amount from the registrar at its New York office within 30 days of presentation for transfer. Definitive securities presented for registration must be duly endorsed by the holder or his attorney duly authorized in writing, or accompanied by a written instrument or instruments of transfer in form satisfactory to CIT or the Trustee for the securities, duly executed by the holder or his attorney duly authorized in writing. You can obtain a form of written instrument of transfer from the registrar for the securities at its New York office. CIT may require you to pay a sum sufficient to cover any tax or other governmental charge that may be imposed in connection with any exchange or registration of transfer of definitive securities, but otherwise transfers will be without charge. If CIT issues definitive securities,

- principal of and interest on the securities will be payable in the manner described below;
- the transfer of the securities will be registrable; and
- the securities will be exchangeable for securities bearing identical terms and provisions.

If CIT issues definitive securities, CIT will do so at the office of the paying agent, including any successor paying agent and registrar for the securities.

CIT may pay interest on definitive securities, other than interest at maturity or upon redemption, by mailing a check to the address of the person entitled to the interest as it appears on the security register at the close of business on the regular record date corresponding to the relevant interest payment date. The term "record date," as used in this prospectus, means the close of business on the fifteenth day preceding any interest payment date.

Notwithstanding the foregoing, the Depository, as holder of the securities, or a holder of more than \$1 million in aggregate principal amount of securities in definitive form, may require a paying agent to make payments of interest, other than interest due at maturity or upon redemption, by wire transfer of immediately available funds into an account maintained by the holder in the United States, by sending appropriate wire transfer instructions. Such paying agent must receive these instructions not less than ten days prior to the applicable interest payment date.

Table of Contents

A paying agent will pay the principal and interest payable at maturity or upon redemption by wire transfer of immediately available funds received from CIT against presentation of the related security at the office of the paying agent.

Except as provided above, owners of beneficial interests in a permanent global security will not be entitled to receive physical delivery of securities in definitive form and will not be considered the holders of the securities for any purpose under the indenture, and no permanent global security will be exchangeable, except for another permanent global security of like denomination and tenor to be registered in the name of the Depositary or its nominee. As a result, each person owning a beneficial interest in a permanent global security must rely on the procedures of the Depositary and, if such person is not a participant, on the procedures of the participant through which such person owns its interest, to exercise any rights of a holder under the indenture.

CIT understands that, under existing industry practices, in the event that CIT requests any action of holders, or an owner of a beneficial interest in a permanent global security desires to give or take any action which a holder is entitled to give or take under the indenture, the Depositary would authorize the participants holding the relevant beneficial interests to give or take this action, and the participants would authorize beneficial owners owning through participants to give or take this action or would otherwise act upon the instructions of beneficial owners owning through them.

Where any debt securities of any series are issued in bearer form, the restrictions and considerations applicable to such debt securities and with respect to the payment, transfer, and exchange of such debt securities will be described in the related prospectus supplement.

The Depositary Trust Company. The Depositary has advised us that it is a limited-purpose trust company organized under the laws of the State of New York, a “banking organization” within the meaning of the New York Banking Law, a member of the Federal Reserve System, a “clearing corporation” within the meaning of the New York Uniform Commercial Code, and a “clearing agency” registered under the Exchange Act. The Depositary facilitates the post-trade settlement among its participants (“Direct Participants”) of sales and other securities transactions in deposited securities, through electronic computerized book-entry transfers and pledges between Direct Participants’ accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. The Depositary is a wholly-owned subsidiary of The Depositary Trust & Clearing Corporation (“DTCC”). DTCC is the holding company for the Depositary, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the Depositary system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly. The rules applicable to the Depositary and its Participants are on file with the SEC.

CIT believes that the sources from which the information in this section and elsewhere in this prospectus concerning the Depositary and the Depositary’s system has been obtained are reliable, but CIT takes no responsibility for the accuracy of the information.

Clearstream. Clearstream advises that it is incorporated under the laws of Luxembourg as a professional depositary. Clearstream holds securities for its participating organizations (“Clearstream Participants”) and facilitates the clearance and settlement of securities transactions between Clearstream Participants through electronic book-entry changes in accounts of Clearstream Participants, thereby eliminating the need for physical movement of certificates. Clearstream provides to Clearstream Participants, among other things, services for safekeeping, administration, clearance, and settlement of internationally traded securities and securities lending and borrowing. Clearstream interfaces with domestic markets in several countries. As a professional depositary, Clearstream is subject to regulation by the Luxembourg Monetary Institute. Clearstream Participants are recognized financial institutions around the world, including agents, securities brokers and dealers, banks, trust

companies, clearing corporations, and certain other organizations and may include any agents. Indirect access to Clearstream is also available to others, such as banks, brokers, dealers, and trust companies that clear through or maintain a custodial relationship with a Clearstream Participant either directly or indirectly.

Distributions with respect to debt securities held beneficially through Clearstream will be credited to cash accounts of Clearstream Participants in accordance with its rules and procedures, to the extent received by the U.S. Depository for Clearstream.

CIT believes that the sources from which the information in this section and elsewhere in this prospectus concerning Clearstream and Clearstream's system has been obtained are reliable, but CIT takes no responsibility for the accuracy of the information.

Euroclear. Euroclear advises that it was created in 1968 to hold securities for participants of Euroclear ("Euroclear Participants") and to clear and settle transactions between Euroclear Participants through simultaneous electronic book-entry delivery against payment, thereby eliminating the need for physical movement of certificates and any risk from lack of simultaneous transfers of securities and cash. Euroclear includes various other services, including securities lending and borrowing and interfaces with domestic markets in several countries. Euroclear is operated by the Euroclear S.A./N.V. (the "Euroclear Operator"), under contract with Euroclear Clearance Systems S.C., a Belgian cooperative corporation (the "Cooperative"). All operations are conducted by the Euroclear Operator, and all Euroclear securities clearance accounts and Euroclear cash accounts are accounts with the Euroclear Operator, not the Cooperative. The Cooperative establishes policy for Euroclear on behalf of Euroclear Participants. Euroclear Participants include banks (including central banks), securities brokers and dealers, and other professional financial intermediaries and may include any agents. Indirect access to Euroclear is also available to other firms that clear through or maintain a custodial relationship with a Euroclear Participant, either directly or indirectly.

Securities clearance accounts and cash accounts with the Euroclear Operator are governed by the Terms and Conditions Governing Use of Euroclear, the related Operating Procedures of the Euroclear System, and applicable Belgian law (collectively, the "Terms and Conditions"). The Terms and Conditions govern transfers of securities and cash within Euroclear, withdrawals of securities and cash within Euroclear, withdrawals of securities and cash from Euroclear, and receipts of payments with respect to securities in Euroclear. All securities in Euroclear are held on a fungible basis without attribution of specific certificates to specific securities clearance accounts. The Euroclear Operator acts under the Terms and Conditions only on behalf of Euroclear Participants and has no record of or relationship with persons holding through Euroclear Participants.

Distributions with respect to debt securities held beneficially through Euroclear will be credited to the cash accounts of Euroclear Participants in accordance with the Terms and Conditions, to the extent received by the U.S. depository for Euroclear.

CIT believes that the sources from which the information in this section and elsewhere in this prospectus concerning Euroclear, the Euroclear Operator, the Cooperative, and Euroclear's system has been obtained are reliable, but CIT takes no responsibility for the accuracy of the information.

Global Clearance and Settlement Procedures

Initial settlement for the securities will be made in immediately available funds. Secondary market trading between participants in the Depository will occur in the ordinary way in accordance with the Depository's rules and will be settled in immediately available funds using the Depository's Same-Day Funds Settlement System. Secondary market trading between Clearstream Participants and/or Euroclear Participants will occur in the ordinary way in accordance with the applicable rules and operating procedures of Clearstream and Euroclear and will be settled using the procedures applicable to conventional eurobonds in immediately available funds.

Table of Contents

Cross-market transfers between persons holding directly or indirectly through the Depository, on the one hand, and directly or indirectly through Clearstream or Euroclear Participants, on the other hand, will be effected in the Depository in accordance with the Depository rules on behalf of the relevant European international clearing system by its U.S. Depository. However, these cross-market transactions will require delivery of instructions to the relevant European international clearing system by the counterparty in that system in accordance with its rules and procedures and within its established deadlines (European time). If the transaction meets the settlement requirements, the relevant European international clearing system will deliver instructions to its U.S. depository to take action to effect final settlement on its behalf by delivering or receiving securities in the Depository and making or receiving payment in accordance with normal procedures for same-day funds settlement applicable to the Depository. Clearstream Participants and Euroclear Participants may not deliver instructions directly to their respective U.S. depositories.

Because of time-zone differences, credits of securities received in Clearstream or Euroclear as a result of a transaction with a participant in the Depository will be made during subsequent securities settlement processing and dated the business day following the Depository settlement date. Credits or any transactions in securities settled during this processing will be reported to the relevant Euroclear or Clearstream Participants on that following business day. Cash received in Clearstream or Euroclear as a result of sales of debt securities by or through a Clearstream Participant or a Euroclear Participant to a participant in the Depository will be received with value on the Depository settlement date but will be available in the relevant Clearstream or Euroclear cash account only as of the business day following settlement in the Depository.

Although the Depository, Clearstream, and Euroclear have agreed to the foregoing procedures in order to facilitate transfers of securities among participants of the Depository, Clearstream, and Euroclear, they are under no obligation to perform or continue to perform these procedures and these procedures may be discontinued at any time.

BENEFIT PLAN INVESTOR CONSIDERATIONS

For a discussion of considerations for certain benefit plan and similar investors subject to the Employment Retirement Income Security Act of 1974, as amended, or similar laws, see “Benefit Plan Investor Considerations” in the applicable prospectus supplement.

The applicable prospectus supplement will also disclose whether any of the Selling Securityholders has held any position or office or had any other material relationship with us during the three years prior to the date of the prospectus supplement.
